CHARTER MAGHREB OF PEOPLES

21/10/08 | éditeur e-joussour

1-The New World Order

The Maghreb, like the rest of the world suffers the influence of a unipolar world order led by "the empire" American. The reign of neo-conservatives around the world and in violation of international law, commits devastating wars, including Iraq, Afghanistan and Lebanon, and continues to support the colonisation of Palestine under the false pretext of security, freedom and democracy.

This new world order accelerates the concentration of wealth, generates wars, exclusions economic, social and cultural, destroys the environment, restricts the rights and freedoms of individuals and groups, while constituting a ground on which thrive folds identity and retrograde.

Faced with this new order neo liberal, men and women around the world, express, through the social forums and social movements, aspirations "of the wretched of the earth"

One of the purposes of these areas for another world is to help strengthen the globalization of resistance against "a process of capitalist globalization, commissioned by major multinational corporations and governments and international institutions to serve the interests of those. "

These places of convergence of social movements "are intended to prevail, as a new stage of world history, a globalization of solidarity that respects human rights universal, those of all citizens and all citizens of all nations, And the environment, supported by systems and democratic institutions in the service of social justice, equality and sovereignty of peoples. "Under the slogan" Another world is possible. "

2. Towards a Maghreb Peoples

The social movements of the Maghreb, on the basis of these principles and civic values, democratic and universal, are an integral part of the movement born just across the planet, expressing the will of peoples to build another world. They strengthen the international dynamics of citizen resistance to the offensive neo liberal and reinforce through them.

The impetus since 2004, when Social Forum Morocco, and crowned by the Preparatory Assembly held at Bouznika in 2006 for the construction of the Maghreb Social Forum, is based on historical, political, cultural, linguistic make the building of the Maghreb peoples in the era of globalization and the construction of regional groupings not only a necessity, but a challenge and an imperative of the hour. It should help to overcome divisions and national chauvinism closely reflects the will of minorities to maintain the grip on power and wealth.

Participants in the Maghreb Assembly held on the sidelines of the 1st Maghreb Social Forum 25 - 26 and July 27 in El Jadida,

a) Consider the size Maghreb is not a hollow concept or a vision; it is not only a story broken by the old colonial wars, but it is a necessity now and structural face of offensive European and U.S. attempts to dominate the region. The failure of the states in the region to achieve unity of the Maghreb, regional conflicts put us under an obligation to search for alternatives to create a space of Maghreb of peace, prosperity, democracy and popular sovereignty.

b) Undertake to contribute, by the confrontation of ideas and democratic debate, the construction of alternatives facing the logic of exclusion and the safe choice of rulers and formulate concrete proposals linked to effective actions so the fundamental rights of populations in their diversity outweigh the security considerations and financial interests closer.

c) Affirm their commitment to build:
