**Summary: Letter of Appreciation for the university course entitled "Clinical Psycho-Sexology"**

To whom it may concern,

I am Roberta Rossi, President of the Italian Federation of Scientific Sexology (FISS), and I would like to express my appreciation in favour of the new Master's degree in Clinical Psychology proposed for the year 2019/2020 by "Sapienza University of Rome" together with the "University of Rome Tor Vergata" entitled "Clinical Psycho-Sexology".

The training project presented is very important, I appreciate the high scientific and educational quality of the course that will be held entirely in English Language. Furthermore, the importance of such a useful qualified figure is emphasized, both in public health services and private practice.

The "Clinical Psycho-Sexologist" provides countless professional opportunities, at level of clinical, research and forensic field.

We fully believe that the university program "Clinical Psycho-Sexology" would be a great addition to your educational offer.

Best regards,

Roberta Rossi
