Contents

List of figures viii
List of tables ix
Editorial review board xi
List of contributors xii
Foreword by Soocheol Lee xiv
Preface xv

PART I THEORY
Section A Exploring theoretical assumptions

1 Environmental taxes and fees: wrestling with theory 5
    Janet E. Milne

2 Environmental taxation for a sustainable future: perspectives 24
    from environmental macroeconomics
    Seck L. Tan and Dodo J. Thampapillai

3 The role of the precautionary principle in designing energy taxes 39
    in Australia
    Prafula Pearce

Section B The relationship between environmental taxation and 64
    trade

4 Inherent logic of EU energy taxes: toward a balance between 55
    market protection and environment protection
    Álvaro Antón Antón and Marta Villar Ezcurra

5 WTO open trade rules and domestic environmental protection 69
    policies: a balancing approach
    Bill Butcher

6 Addressing the inequality issue under border carbon adjustment 82
    Xin Zhou, Takashi Yano and Mustafa Moinuddin
Section C  Permit trading and price stability

8  The EU Emission Trading Scheme: is there a need for price stabilization?  
   Claudia Kettner, Daniela Kletzan-Slamanig and Angela Köppl  
   113

9  Incentivizing technologic change in emissions trading systems: the case of excess supply  
   Stefan E. Weishaar  
   126

Section D  Political economy

10 The political economy of subsidy reform: which factors are game-changers?  
   Jacqueline Cottrell  
   147

11 Decision making for market-based environmental cost allocation: the case of packaging waste policy in Germany  
   Susumu Kitagawa  
   166

PART II  IMPACT
Section A  Environmental taxes

12 Environmental taxes – definitional analysis: behavioural change or revenue raising  
   Sally-Ann Joseph  
   187

13 Abatement of emissions for a sustainable future: revisiting the carbon tax in China  
   Yuhong Zhao  
   202

14 Effects and issues of the 2010 resource tax reform in Xinjiang  
   Yanmin He  
   215

15 Macroeconomic effects of environmental tax subsidy reform: an evaluation for Italy  
   Cristina Brandimarte  
   227
Section B  Waste management

16  Does industrial waste taxation contribute to waste reduction?  
    Panel data analysis of the generation and final disposal of  
    industrial waste in Japan  
    Toshiaki Sasao  
    245

17  Exploring the need for direct tax incentives for plastic waste  
    management in India  
    Rajiv V. Shah  
    260

Section C  Permit trading

18  Regional market-based climate policy in North America:  
    efficient, effective, fair?  
    Sven Rudolph, Takeshi Kawakatsu and Achim Lerch  
    273

19  A survey analysis of company perspective to the GHG  
    emissions trading scheme in the Republic of Korea  
    Sunhee Suk and Xianbing Liu  
    289
