## Personal information

First name(s) / Surname(s)	<b>Rossella Paolini</b>
Address(es)	Department of Molecular Medicine, "Sapienza" University of Rome, Viale Regina Elena, 291 00161 Rome, Italy
Telephone(s)	06-49255670
Fax(es)	06-44340632
E-mail	rossella.paolini@uniroma1.it
Nationality	Italian
Date of birth	
Gender	Female

## Occupational field

## Work experience

Dates	<b>November 2016 to present</b>
Occupation or position held	Full Professor in Immunology
Dates	<b>November 2001- 2016</b>
Occupation or position held	Associate Professor in Immunology
Main activities and responsibilities	Project coordinator, research projects in the field of Immunology and Cell Biology Academic teacher, Immunology and General Pathology for Medical School students and Immunology for students of the First-Level Master in Biotechnology
Name and address of employer	Dept. Molecular Medicine, "Sapienza" University of Rome Viale Regina Elena, 291 00161, Rome Italy
Sector	General Pathology and Immunology

Dates	<b>January 1991- October 2001</b>
Occupation or position held	Researcher
Main activities and responsibilities	Research, academic teaching, and student training
Name and address of employer	Dept. Molecular Medicine, "Sapienza" University of Rome
Sector	General Pathology and Immunology

## Education and training

Dates	<b>1993-1995</b>
Title of qualification awarded	<b>Visiting Associate</b>
Name and type of organisation providing education and training	Section of Molecular Immunology and Allergy, National Institute of Allergy and Infectious Diseases (NIAID), National Institutes of Health (NIH), Bethesda, (MD), USA
Dates	<b>1990-1993</b>

Title of qualification awarded	<b>Visiting Fellow</b>																								
Name and type of organisation providing education and training	Section of Molecular Immunology and Allergy, National Institute of Allergy and Infectious Diseases (NIAID), National Institutes of Health (NIH), Bethesda, (MD), USA																								
Dates	<b>1989-1992</b>																								
Title of qualification awarded	<b>PhD in Experimental Medicine</b>																								
Name and type of organisation providing education and training	Laboratory of Immunology, Dept. Experimental Medicine, "Sapienza" University of Rome																								
Dates	<b>1987</b>																								
Title of qualification awarded	<b>License in Biological Science</b>																								
Name and type of organisation providing education and training	"Sapienza" University of Rome																								
Dates	<b>1982- 1986</b>																								
Title of qualification awarded	<b>Master Degree in Biological Science</b>

Scientific activities	<p>Since 1991 Dr. Paolini has been involved in the study of signal transduction pathways implicated in the regulation of different aspects of leukocyte biology.</p> <p>Her studies have importantly contributed to elucidate the intracellular biochemical events leading to the activation of mast cell functional program. In particular, she has first demonstrated that FcεRI subunits undergo reversible tyrosine phosphorylation upon antigen stimulation, and proposed that cycles of phosphorylation and dephosphorylation serve to maintain the propagation of intracellular signalling.</p> <p>More recently, she has been focused in studying the pathways and effectors responsible for negative signalling generated upon engagement of activating receptors in NK and mast cells, highlighting a critical contribution of the ubiquitin pathway in limiting the rate and the extent of cell functional responses.</p> <p>Dr. Paolini is author of several original publications in high rank journals. She is referee of international journals and responsible of research grants from MIUR and Ministero della Salute.</p>
