Agnese.po@uniroma1.it

Nationality

Date of birth

Gender

Occupational field

SSD MED/46

Work experience

Dates

1/7/2016 – present: Assistant Professor at Sapienza University of Rome, Department of Molecular Medicine

1/7/2015 – 30/06/2016: Research fellow at Sapienza University of Rome, Department of Molecular Medicine

1/5/2012 – 30/04/2015: Assistant Professor at Sapienza University of Rome, Department of Molecular Medicine

1/1/2012 – 30/4/2012: post doctoral fellow at Sapienza University of Rome, Department of Molecular Medicine

1/1/2009 - 31/12/2011: Postdoctoral fellowship – founded from FIRC (Cancer Research Italian Foundation)

Occupation or position held

RTD-B at Department od Molecular Medicine, Sapienza University of Rome

Main activities and responsibilities

Researcher's activity focuses on the identification and characterization of molecular mechanisms involved in brain cancer, Neural Stem Cells and Cancer Stem Cells with particular focus on the role of the Hedgehog (Hh) pathway.

Moreover, research activity is focused on non-coding RNAs, both microRNA and long non-coding RNAs, in the pathobiology and as biomarkers in different contexts, with particular attention to Type 2 Diabetes and brain cancers.

Education and training

2009 PhD in Endocrinology and Molecular Medicine at Sapienza University of rome , Experimental Medicine Department. Experimental thesis title: "Hedgehog signalling in cerebellar neural progenitor and tumor cells is under cooperative microRNA control". Tutor: Alberto Gulino

2004 Degree in Biology (Sapienza University of Rome) with full marks cum laude (110/110 cum laude)
