## Welcome to Copenhagen

# Urban Challenge Programme

## Welcome to Copenhagen

Welcome on board as participant on our urban challenge programme. We hope you will have a great time in Copenhagen. The Urban Challenge programme is as much an academic summer program as a cultural and social exchange, and we therefore hope that you will ask your fellow students at Copenhagen Business School (CBS) to show you around and get to know some of the best local spots.

You can also find inspiration for things to see and do here in Copenhagen through websites such as [Visit Copenhagen](#), [AOK](#) or [Yelp](#).

On the following pages you will get a quick introduction to Copenhagen Business School, accommodation and suggestions for public transportation etc.

## Copenhagen Business School

Copenhagen Business School is a leading international 'Business University' with a clear strategy for global development and internationalization. CBS takes great pride in its unique international profile – with more than 3,000 foreign students as well as one-third of its faculty. We look forward to strengthening our international focus even further in the coming years.

What does it take to tackle both large-scale societal and business challenges – like sustainability, international debt, technological innovation, or cross-cultural communication? At Copenhagen Business School, we believe that excellent teaching and research are needed to provide the sharpest analyses and insights.

Since challenges often involve cross-intellectual boundaries, we believe that cross-disciplinary perspectives are important; our scale allows us to address problems from a diversity of angles. And we believe that open and collaborative partnerships are essential, with both researchers and other universities but also between students, businesses, public institutions, NGOs and policy makers.

## Accommodation

As a participant on our Urban Challenge programme you receive a student stipend of 275 euros to help you cover expenses for transport and accommodation. We are currently in contact with a number of hostels in order to give you the best offer for housing during your stay in Copenhagen – location and price wise.

We have contacted the two hostels – [Cabinn](#) and [Danhostel City](#).

Double room	690 DKK
3 bed room	770 DKK
4 bed room	825 DKK
5-6 bed room	1195 DKK
7-8 bed room	1555 DKK

### Transportation

For most Copenhageners bikes are the preferred means for transportation. Copenhagen has one of the world's best bicycle infrastructures with cycle tracts all over the city separating bicyclists from cars and pedestrians.

We thereby recommend you to rent a bike during your stay as your fellow Danish students all commute on bikes as it is the most convenient, cheapest and quickest ways to get around the city.

You can rent [city bikes](#), with docking stations all over the city, or rent a bike through one of the many bike rentals in the city. We recommend [Bike Rental Copenhagen](#) as they have good deals (especially for groups) and bikes and are located in the heart of Copenhagen.

For information about busses and local trains, please visit [Rejseplanen](#) (the Travel Plan).

We look forward to meet you all here in Copenhagen.

Best wishes,

The Urban Challenge team at Copenhagen Business School
