The Summer School provides the opportunity to analyse the features of urban context, in terms of both urban planning and construction, found within the existing historic framework, using the primary tools and methods of cognition, through both documentation and direct observation. The end goal is to provide the student with the tools needed to correctly carry out an all-encompassing analysis.

Why Ciciliano?

- To live a learning experience in a medieval village surrounded by a wonderful natural setting in the heart of Italy, not far from Rome
- To study in the impressive premises of a medieval castle
- To make a contact with centuries-old materials during workshops in the historic core
- To join a friendly, international, multicultural and interdisciplinary group
- To enjoy top-quality teaching and learning
- To meet a professional and friendly staff
- To live in the old houses and properties, located in the historic core
- To discover mediterranean diet
