

DILETTA OVERI

Curriculum Vitae

Part I – General Information

Full Name	Diletta Overi
-----------	---------------

Part II – Education

II A – Qualifications

Type	Year	Institution	Notes
PhD	2021	Sapienza University of Rome	PhD in Experimental and Clinical Hepato-Gastroenterology.
Licensure	2017	Sapienza University of Rome	License to practice medicine
University graduation	2017	Sapienza University of Rome	Master's Degree in Medicine and Surgery (110/110 <i>cum laude</i>)
High School graduation	2010	Istituto del Sacro Cuore, Florence, Italy	Liceo classico (100/100 <i>cum laude</i>)

II B – Training courses

Year	Institution	Notes
2022	COST Action CA18122 – Euro-Cholangio-Net	Hybrid Training School on Multi-Omics. 2-3 June, 2022.
2021	COST Action CA18122 – Euro-Cholangio-Net	Virtual Training school in novel experimental models for cholangiocarcinoma: from ex vivo patient-derived organoids to in vivo animal models. 11-12 March, 2021.
2019	Office of Animal Care and Use (OACU), University of North Carolina at Chapel Hill, NC, USA	Training course and certification of proficiency in Mouse handling and aseptic techniques on rodents. 22 May, 2019.
2013	IRCAD, Strasbourg, France	B.E.S.T. Innovation Course – Business Engineering Surgical Technologies. 26-31, August 2013.

Part III – Appointments

IIIA – Academic Appointments

Start – End	Institution	Position
2021 – 2025	Department of Anatomical, Histological, Forensic Medicine and Orthopedic Sciences. Sapienza University of Rome, Rome, Italy	Ricercatore a tempo determinato – Tipo “A”
2019 – 2019	Department of Cell Biology and Physiology. University of North Carolina at Chapel Hill, Chapel Hill, NC, USA	Research Associate
2017 – 2021	Department of Anatomical, Histological, Forensic Medicine and Orthopedic Sciences. Sapienza University of Rome, Rome, Italy	PhD Student (Thesis title: “Ruolo delle cellule staminali/progenitrici nella rigenerazione epatica e delle vie biliari: fenotipo e vie di segnalazione coinvolte”)
2014 – 2017	Department of Anatomical, Histological, Forensic Medicine and Orthopedic Sciences. Sapienza University of Rome, Rome, Italy	Graduate student and thesis internship (Thesis title: “Il ruolo delle cellule progenitrici epatiche nella steatosi epatica non alcolica: aspetti istomorfologici, caratteristiche genetiche e livelli di stress ossidativo sistematico”)

IIIB – Other Appointments

Start – End	Institution	Position
2020–2022	COST Action CA18122 – Euro-Cholangio-Net	Social Media Manager

Part IV – Teaching experience

Year	Institution	Lecture/Course
2023–present	Sapienza University of Rome, Rome, Italy	Anatomia Umana I (BIO/16, 3 CFU), Corso integrato di Anatomia Umana. Corso di laurea magistrale a ciclo unico in Medicina e Chirurgia B (abilitante all'esercizio della professione di Medico Chirurgo).
2022–present	Sapienza University of Rome, Rome, Italy	Anatomia Umana II (BIO/16, 2 CFU), Corso integrato di Anatomia umana e meccanica dei sistemi biologici. Corso di laurea magistrale a ciclo unico in Medicina e Chirurgia HT (abilitante all'esercizio della professione di Medico Chirurgo).

2022–present	Sapienza University of Rome, Rome, Italy	Anatomia Umana (BIO/16, 3 CFU), Corso integrato di Basi morfologiche e funzionali del corpo umano. Corso di laurea in Igiene Dentale A (abilitante alla professione sanitaria di igienista dentale).
2022–present	Sapienza University of Rome, Rome, Italy	Tutoring for students in Human Anatomy for dissection activities.
2019–present	Sapienza University of Rome, Rome, Italy	Support to teaching activities. Corso integrato di Anatomia Umana. Corso di laurea magistrale a ciclo unico in Medicina e Chirurgia A.

Part V - Society memberships, Awards and Honors

V A – Society memberships

Year	Society Membership
2023–present	Società Italiana di Anatomia e Istologia (SIAI)
2023–present	COST Action CA22125 – Precision-BTC-Network
2018–present	European Network for the Study of Cholangiocarcinoma (ENS-CCA)
2020–2023	COST Action CA18122 – European Cholangiocarcinoma Network (Euro-Cholangio-Net)
2018	European Association for the Study of the Liver (EASL)

V B – Awards and Honors

Year	Awards and Honors
2022	Regione Lazio prize: “Contributi premiali per i ricercatori e assegnisti di ricerca per rafforzarne la condizione professionale e potenziare il sistema della ricerca del Lazio” - Obiettivo di Policy 4 “Un’Europa più sociale” - Obiettivo specifico f. Programma Fondo Sociale Europeo Plus (FSE+) 2021- 2027. (Codice SIGEM 22009D).
2010	National Excellence Honour Roll (Albo Nazionale delle Eccellenze).

V C – Editorial board membership

Year	Journal	Role
2023–present	Frontiers in Cell and Developmental Biology	Associate editor
2022–2023	Frontiers in Cell and Developmental Biology	Review editor
2022–2023	Cells	Editor for a special issue

Part VI - Funding Information [grants as PI-principal investigator or I-investigator]

VIA – Grants as PI-principal investigator

Year	Title	Program	Grant value
2023–present	Unraveling morpho-molecular heterogeneity in cholangiocarcinoma for the individuation of tissue biomarkers and targetable pathways (PI)	PRIN: PROGETTI DI RICERCA DI RILEVANTE INTERESSE NAZIONALE – Bando 2022	
2023–present	Non-invasive biological and molecular characterization of autoimmune liver diseases and variant syndromes (Associated PI)	PROGETTI DI RICERCA DI RILEVANTE INTERESSE NAZIONALE – Bando 2022 PNRR. PI: Prof. Luca Maroni	

VIB – Grants as Investigator

Year	Title	Program
2022–present	“Rna based therapeutics in cancer: from discovery to pre-clinical studies” (<i>componente di massa critica</i>)	PNRR Centro Nazionale 3 – Spoke 2. PI: Prof. Alberto Boffi.
2022–present	“Creazione di un’infrastruttura di innovazione, servizio, formazione, terza missione e ricerca aperta e distribuita sul territorio, finalizzata a supportare la creazione e sviluppo di dispositivi medici”	Progetto PNRR Rome Technopole - Progetto Flagship 4. PI: Prof. Livia Ottolenghi.
2022	“Anatomical and molecular characterization of liver and biliary tree stem cell niches and their role in human chronic liver diseases and cholangiocarcinoma”	Progetti di ricerca medi, Sapienza Università di Roma. PI: Prof. Eugenio Gaudio.
2020	Role and activation mechanisms of Biliary and hepatic stem/progenitor cells during liver and biliary diseases.	Progetti di ricerca medi, Sapienza Università di Roma. PI: Prof. Antonio Franchitto.
2019	Hepatic and biliary stem/progenitor cells niches: role, activation mechanisms and their potential role in liver and biliary diseases.	Progetti di ricerca medi, Sapienza Università di Roma. PI: Prof. Paolo Onori.

2018	Ruolo dell'antagonista del recettore della secretina nel danno delle vie biliari e della fibrosi epatica in modello sperimentale di colangite biliare primitiva.	Progetti di ricerca piccoli, Sapienza Università di Roma. PI: Prof. Paolo Onori
------	--	--

VI C – Other Fundings

2021	Virtual Mobility Grant. COST Action CA18122 – European Cholangiocarcinoma Network (grant value: € 1.500,00).
2018	Bursary to attend EASL International Liver Congress 2018, Paris, France
2017	PhD bursary. PhD Course in Experimental and Clinical Hepato-Gastroenterology. Sapienza University of Rome, Rome, Italy.

Part VII – Research Activities

VII A – Research Activities

Keywords	Brief Description
Endoderm stem cells; liver; biliary tree; regenerative medicine; cell cultures	Anatomy of endoderm stem cell niches and their role in regenerative medicine of the liver and the biliary tree. 1. Identification of endoderm stem cell niches within the hepato-bilio-pancreatic system and in the duodenum; immunophenotypical study of stem/progenitor cells and their niche <i>in situ</i> . 2. Isolation of stem/progenitor cells from the liver, biliary tree, and duodenum, both from adult and fetal organs, and development of self-replicating culture conditions both on plastic and in 3D as organoids. 3. Identification of culture conditions with the potential to induce differentiation of biliary tree stem/progenitor cells into mature hepatocytes <i>in vitro</i> , without the need for genetic reprogramming. 4. Evaluation of the differentiative potential towards hepatic and pancreatic fate <i>in vivo</i> in animal models, both murine and porcine, by cell injection or by “Patch Graft” method.
Hepatic stem/progenitor cells; liver diseases; cholangiopathies; primary biliary cholangitis; steatotic liver disease	Characterization of hepatic stem/progenitor cells (HpSCs) and their niche in liver diseases and in cholangiopathies 1. Histomorphological and immunohistochemical study of HpSCs in normal livers and in pathological conditions. 2. Characterization of cell signaling pathways within HpSC niche in liver diseases and cholangiopathies. 3. Investigation of the relationship between liver disease severity and HpSC activation in steatotic liver disease with the individuation of severe histological patterns of disease and associated (cardio)metabolic risk factors; demonstration of the benefic role of therapeutic interventions (dietary modifications and bariatric surgery) in restoring

	<p>normal liver histology and silencing HpSC response in pediatric patients with steatotic liver disease.</p> <ol style="list-style-type: none"> 4. Identification of HpSCs as a hallmark of disease severity in primary biliary cholangitis at diagnosis and as an independent predictor of response to first line therapy. 5. Individuation of ductular-canalicular junction formation as a histological feature as a response to cholestasis mediated by HpSCs, both in human primary biliary cholangitis and an experimental model of cholangitis.
Biliary tree stem/progenitor cells; primary sclerosing cholangitis; lineage tracing; orthotopic liver transplantation	<p>Characterization of biliary tree stem/progenitor cell (BTSC) niches in the development and progression of cholangiopathies.</p> <ol style="list-style-type: none"> 1. Histomorphological and immunophenotypical characterization of BTSC niche within peribiliary glands in normal ducts and in primary sclerosing cholangitis. 2. Description of cell signaling pathways in peribiliary glands and biliary tree regeneration in primary sclerosing cholangitis. 3. Demonstration of the role of BTSCs in biliary epithelium regeneration by lineage tracing in a murine model of cholangiopathy (DDC). 4. Characterization of a model of bile duct regeneration by precision cut bile duct slices and <i>ex vivo</i> demonstration of regenerative capabilities of BTSCs. 5. Individuation of the putative role of peribiliary gland ischemic injury as a risk factor for severe biliary complications and need for re-transplantation after orthotopic liver transplantation.
Cholangiocarcinoma; biliary tract cancer; spatial molecular analysis; tumor microenvironment; tumor biomarkers	<p>Cell of origin and biliary tree stem/progenitor cell (BTSC) niche involvement in cholangiocarcinoma.</p> <ol style="list-style-type: none"> 1. Histomorphological and immunophenotypical characterization of cholangiocarcinoma anatomical subtypes and identification of histological subclasses with distinct cells and ducts of origin. 2. Demonstration of BTSC niche involvement in the progression from primary sclerosing cholangitis towards cholangiocarcinoma. 3. Description of tumor microenvironment and extracellular matrix in cholangiocarcinoma with the identification of soluble factors linked to tumor growth in specific subtypes. 4. Individuation of tissue biomarkers of cholangiocarcinoma and individuation of cancer stem cell populations <i>in situ</i>. 5. Identification of molecular signatures of tumors with spatial molecular analysis and correlation with clinical data and patient prognosis.

VII B – National and International Conferences

Role	Year	Notes
Panelist	2023	Webinar “Women in Sciences: passion and challenges”. Euro-Cholangio-Net, ENSCCA & ICRN Mentorship Lecture. September 21, 2023.
Speaker	2023	76° Congresso Nazionale della Società Italiana di Anatomia e Istologia (SIAI), September 11-13, 2023, Modena, Italy.
Organizing committee member	2023	COST Action CA18122 EURO-CHOLANGIO-NET monothematic conference “The Importance of Accurate Diagnosis and Classification of Cholangiocarcinoma”. June 8-9, 2023, Rome, Italy.
Poster presenter	2022	75° Congresso Nazionale della Società Italiana di Anatomia e Istologia (SIAI), September 14-16, 2022, Padova, Italy.
Poster presenter	2018	72° Congresso Nazionale della Società Italiana di Anatomia e Istologia (SIAI), September 20-22, 2018, Parma, Italy.
Poster presenter	2018	EASL International Liver Congress 2018, April 11-15, 2018, Paris, France.

Part VIII – Summary of Scientific Achievements

Product type	Number	Database	Start	End
Papers [international]	38	Scopus	2016	2024

Total Impact factor (IF)	359
Average IF	9.7
Total IF as first/co-first author	45 (n=7)
Average IF as first/co-first author	6.5
Total Citations	1047
Average Citations per Product	28
Hirsch (H) index	20
Normalized H index*	2.2

*H index divided by the academic seniority.

Research output was calculated based on Scopus database.

Impact factor was obtained from Journal Citation Reports (JCR) – Clarivate based on the year of publication of each paper. Latest JCR update: 2022.

Part IX– Selected Publications

List of the publications selected for the evaluation.

Citations were obtained from Scopus database. Impact factor was obtained from Journal Citation Reports (JCR) – Clarivate based on the year of publication of each paper. Latest JCR update: 2022.

Publications	Citations	IF (year)
1. Carpino G, Cardinale V, Folseraas T, Overi D , Grzyb K, Costantini D, Berloco PB, Di Matteo S, Karlsen TH, Alvaro D, Gaudio E. <i>Neoplastic transformation of peribiliary stem cell niche in cholangiocarcinoma arisen in primary sclerosing cholangitis.</i> Hepatology. 2019 Feb;69(2):622-638.	46	14.68 (2019)

Participation to national and international conferences.

- European Network for the Study of Cholangiocarcinoma (ENS-CCA) biennial meeting & joint CA18122 COST Action meeting. July 7-8, 2022.
- CA18122 WG/MC Hybrid Meeting. September 1-3, 2021.
- AMMF 2021 European Cholangiocarcinoma Conference, May 13-14, 2021.
- Unravelling the Complexity of Biological Systems by Transmission Electron Microscopy. Lake Como School of Advanced Studies, April 19-20, 2021.
- Cholangiocarcinoma Foundation Annual Conference, March 31 – April 2, 2021.
- EASL Digital Liver Cancer Summit. February 5-6, 2021.
- 52nd AISF Annual Meeting, Associazione Italiana per lo Studio del Fegato. February 21-22, 2019, Rome, Italy.
- II Biennal Congress of the European Network for the Study of Cholangiocarcinoma (ENS-CCA). June 21-23, 2018, Rome, Italy.
