ART. 2.1 GENERAL REQUIREMENTS

1. In order to apply for the Call, the student must be **enrolled** (even part-time) at Sapienza, in the **2022/2023 academic year**, in a bachelor's, master's, single-cycle, PhD programmes or Specialization School.

2. The student will also have to **renew the enrolment at Sapienza for the a.y. 2023/2024 within the deadlines set by the University** (see the page *https://www.uniroma1.it/it/pagina-strutturale/studenti*section "University fees"), with the exception of graduating students[3].

3. Students who are enrolled in the 3rd year or beyond the regular duration (*fuori corso*) in a Degree Programme (1st cycle) in the a.y. 2022/2023 and plan to graduate in the a.y. 2022/2023, can leave during the first year of a master's degree programme (II cycle) as long as the latter pertains to this selection call. To benefit from the mobility, students must enrol in a master's degree programme for the a.y. 2023/2024 and the mobility can be carried out **exclusively in the second semester** of the a.y. 2023/2024. If the student applies for a mobility period of one year, the latter will be automatically reduced with the prior authorization of the host institution.

4. **Graduating students** who carry out a period of mobility **can graduate only after the conclusion of the period of study abroad** and the completion **of the digitized procedure for recognition of the learning activity** envisaged by the Learning agreement/Change form (exams or thesis research activity), under penalty of reimbursement of grants (see Art. 9 Learning Agreement).

5. **PhD students will have to conclude** the stay abroad no later than the end of the legal duration of the doctoral programme and obtain a certificate of the activity carried out from the host university.

6. **Specialization students will have** to request the **authorization** of the Director of the specialization school in which they are enrolled in order to benefit from the mobility and conclude their stay abroad no later than the end of the school programme. They will also have to obtain a certificate of the activity carried out from the host university.

7. In the case of **specialization programmes**, the disbursement of the Erasmus grant is subject to the compatibility of the specialization contract with the Erasmus grants. Any incompatibility still allows participation in the programme, but without a contribution.

  The duration may vary only for proven academic reasons if the student:
   • starts the mobility in the second semester
   • has already benefited from periods of mobility in the same study cycle (see art. 2.2.). In this case, the maximum duration will be reduced to the remaining months with respect to the maximum limit of 12 months for each study cycle and 24 months for single-cycle degree programmes, subject to authorization by the institution of destination.

Postgraduate taught (Study): It may be possible to host Postgraduate for research placement in addition to the number indicated below. Each application will be considered on its own merit and will depend on the capacity of the chosen mentor to host the PhD student. Students should approach the graduate schools with a proposal in the first instance, and secure an academic mentor at Glasgow prior to nomination. Students will not be accepted without a confirmed host mentor. Host mentors at UofG are not co-supervisors and will not read/mark students work; the mentor's role is to help students integrate into the postgraduate and academic community and access relevant networks and resources that are unique to UoG. Students are thus expected to be self-directed and to continue working primarily with their home supervisor throughout the duration of their exchange to achieve required milestones. Once a mentor is identified, the student must be nominated to the UofG Visiting student team by the home international office/Erasmus Office (as applicable).

Destinations and available places could undergo changes should amendments be introduced by the partner universities or by the European or national bodies that regulate the programme. It is recommended **that you independently inquire about the possibilities of studying at foreign campuses by checking the educational offer** on the websites of the individual universities.

4. Furthermore, for agreements that have yet to be stipulated digitally through the Erasmus Without Papers network, as foreseen by the new Erasmus + 2021-27 programme, it is possible that some conditions change during the stipulation phase and that not all selected students can actually take part in the exchange and/or can do so with the conditions set out in this notice. It will be the responsibility of the offices to ensure that this transition phase does not impact, as far as possible, on the selection of students, but it is important that candidates are informed that all locations with available places, as published, **are to be considered as"subject to"**.

5. It will not be possible to guarantee departure for the 1st semester to locations whose deadline for sending student nominations is prior to the publication of the final ranking. (art. 14 "END OF THE PROCEDURE").

PLEASE NOTE:

When choosing the mobilities, please pay attention to the language level required for attendance at the host institution. The requirements in the table have been indicated by the individual partner universities.

However, it is understood that the agreements of groups B, D, E and F are not specific to Data science and will be then the student is responsible for verifying the feasibility of the study project based on the educational offer of the host university.

In the event of agreements in which applications from Data Science students will be submitted, these will be included in the ranking list together with those of the Teaching Area Council/Study Course (CAD/CdS) to which they belong, except that the maximum number of places that can be assigned to Data Science (and Cybersecurity) students is half of those available. In the event of an odd number of places, the extra one is assigned on the basis of the merit ranking and in the event of a tie, to the student of the CAD/CdS to which the agreement belongs.

Students of the LM in Cybersecurity can present their application in groups B, C and E. However, it is understood that the agreements in groups B, C and E are not specific to Cybersecurity and therefore the student will be responsible for verifying the feasibility of the study project based on the educational offer of the host university.

In the event of agreements in which applications from Cybersecurity students are submitted, these will be included in the ranking together with those of the CAD/CdS to which they belong, except that the maximum number of places that can be assigned to Cybersecurity and Data Science students is half of those available. In the event of an odd number of places, the extra one is assigned on the basis of the merit ranking and in the event of a tie, to the student of the CAD/CdS to which the agreement belongs.

The order of priority indicated at the time of the application will be binding for the assignment of the venue, in the event that the candidate is successful in more than one venue.
