

Procedura valutativa ai sensi dell'art. 24, commi 5 e 6, della Legge n. 240/2010 per la copertura di n. 1 posto di Professore Universitario di seconda fascia per il Settore concorsuale 05/A1 – Settore scientifico disciplinare BIO/03 presso il Dipartimento di Biologia Ambientale – Facoltà di Scienze Matematiche, Fisiche e Naturali, **Decreto Rettore Università di Roma “La Sapienza” n. 67/2019 del 11.01.2019. Codice Concorso 2018PAR046**

LAURA VARONE  
Curriculum Vitae

## Part I – Personal Data

### Part II – General Information

Laura Varone in 2002 has been awarded the Degree in Biology from Sapienza University of Rome, in 2007 she has been awarded the PhD in Ecological Sciences from Sapienza University of Rome. Since December 2011, she is a permanent Researcher at the Department of Environmental Biology, Sapienza University of Rome, carrying out research in the field of the plant ecophysiology. Specifically, her research focuses on plant functional responses to environmental factor variations by using a trait-based approach. From 2003 to 2011, prior to having a permanent position, she had several research fellowships at the Department of Environmental Biology (*formerly Department of Plant Biology*), Sapienza University of Rome, in the fields of plant biomonitoring, plant phenology, *ex situ* and *in situ* conservation strategies, ecophysiology of plant species at extinction risk and adaptive strategies of dune species. **In January 2014 she has been awarded the Italian Scientific Qualification (Abilitazione Scientifica Nazionale, in accordance with article No 6 Law 240/2010) as associate professor in the sector 05/A1 (Botany, valid until 28/01/2020).**

## Part III – Education and Training

### IIIA – Education

**2007:** PhD in Ecological Science at Department of Environmental Biology (*formerly Department of Plant Biology*), Sapienza University of Rome (Dissertation: Adaptive strategies of Mediterranean evergreen shrubs species).

**2002:** State Examination at Sapienza University of Rome as a Qualified Biologist

**2002:** Biology Degree (*Bio-Ecological Curriculum*) at Sapienza University of Rome (Dissertation: Structure and function relationship of Mediterranean evergreen maquis species: an approach to the functional group definition).

## *IIIB – Training*

**June 2009:** she attended the theoretical and practical Course “*Methods of Plant Stress Physiology*” at Institute of Botany (University of Innsbruck, Austria).

**June 2007:** she attended the theoretical and practical Course: “*Germplasm ex situ conservation and management*” at Sardinian Germplasm Bank - Centre for Biodiversity Conservation (Department of Life and Environmental Sciences, formerly *Department of Botanical Sciences*, University of Cagliari, Italy).

**October 2006:** she attended the Summer School “*Microscopy techniques as analytical tools in plant cell and tissue*” organised by the Italian Botany Society.

## **Part IV– Appointments**

### *IVA – Academic Appointments as Elected Member*

**December 2015 – today:** member of the Department of Environmental Biology Board, Sapienza University of Rome.

**December 2015 – today:** member of the Science Faculty Board, Sapienza University of Rome.

### *IVB – Academic Appointments as Nominated Member*

**2018 – today:** member of the Commission for Research at Department of Environmental Biology, Sapienza University of Rome.

**2018 – today:** member of the Quality Assurance (QA) management group for the Single Cycle Degree in Primary Teacher Education, Sapienza University of Rome.

**2017 – today:** substitute member of the Disciplinary Board, Sapienza University of Rome.

**2016:** member of the University Commission for Scientific Research, Sapienza University of Rome.

## **Part V – Teaching Experience**

### *VA – Course Ownership*

**Academic year 2018/2019:** Course of “Ecology and Environmental Botany” (SSD BIO/03, 6 c.f.u., 48h) for the Bachelor Degree in Landscape and Environmental Planning and Design (Inter-University Course, Sapienza University of Rome – Tuscia University).

**Academic years 2018/2019 and 2017/2018:** Course of “Landscape Ecology and valorization of agro-food products” (SSD BIO/03, 6 c.f.u., 48h) for the Master Degree in Food Science and Technology (Inter-University Course, Sapienza University of Rome – Tuscia University).

**Academic year 2016/2017:** Course of Landscape Ecology and valorization of agro-food products (SSD BIO/03, 6 c.f.u., 48h) for the Master Degree in Science and Technology for quality and valorization of the agro-food products (Sapienza University of Rome).

**Academic years 2018/2019, 2017/2018 and 2016/2017:** Laboratory of Botany and Plant Diversity (SSD BIO/01, 1 c.f.u., 12h) for the Degree Course in Biology (Sapienza University of Rome).

**Academic year 2014/2015:** Course of Plant and Environmental Biology (SDD BIO/03, 3 c.f.u., 24h) for TFA course, Teaching Class A060 (Sapienza University of Rome).

**Academic year 2010/ 2011:** Course of Environmental and Applied Botany (SSD BIO/03, 3 c.f.u., 24h) for the Degree Course in Techniques for Landscape Design and Gardens (Sapienza University of Rome).

#### *VB – Supplementary Teaching Activities*

**2017 – today:** Teaching activity in Plant Biology for school work (Alternanza Scuola Lavoro, project LAB2GO, Faculty of Science, Sapienza University of Rome).

**2012 – today:** Supplementary activity support to the CdS of Bachelor Degree in Biology (supplementary teaching support, member of the Degree Commissions, Test to access to Bachelor Degree in Biology).

**2013 – 2015:** Member of the PhD graduate School in Environmental and Evolutionary Biology (Department of Environmental Biology, Sapienza University of Rome).

#### **Part VI – Training or Research Activities at Qualified Italian or Foreign Institutes**

**September – October 2016:** Visiting Professor at the Federal University of Mato Grosso (Brazil) teaching “Methods of biomonitoring of air pollution as from plants” (75h) for the Master Degree Course in Geography at Postgraduate Program in Geography of University Federal of Mato Grosso, Campus of Rondonópolis.

**March – December 2009:** PhD visitor at the Institute of Botany, University of Innsbruck, Austria (collaboration with Prof. Walter Larcher to carry out experiments on photochemical efficiency, stress tests to high and low temperatures, cuticular transpiration, use of “electrolyte leakage” techniques to study cellular membrane functioning under stress conditions).

**May – June 2006:** PhD visiting student at Department of Biology, University of the Balearic Islands, Spain (collaboration with Prof. Jaume Flexas and Prof. Miquel Ribas – Carbó to carry out experiments on the use of oxygen isotope fractionation technique to investigate cell plant respiration).

## **Part VII - Funding Information**

**2017:** Funding for Basic Activities Related to Research in accordance with Law no. 232/2016 (Financing: Ministry of Education, Universities and Research).

**2015:** Work Package Coordinator of the project “BioDiverCity: the influence of drivers and alien species on the biodiversity of urban environments” (Financing: Sapienza University, Scientific Research 2015).

**2014:** Work Package Coordinator of the project “Forest fires under climate and land use changes: learning from the past to inform the future” (Financing: Sapienza University, Scientific Research 2014).

**2013:** Principal Investigator and Scientific Responsible of a Temporary Fellow Research for the project “Carbon sequestration capability of the Mediterranean costal habitats: past, present and future perspectives” (Financing: Sapienza University, Scientific Research 2013).

**2003 – 2017:** Researcher Unit’s member in 16 research projects on plant carbon sequestration capacity, ecophysiology of dune species, tolerance threshold to stress factors of Mediterranean plant species, *ex situ* and *in situ* plant conservation, biomonitoring by plants (Financing: Sapienza University, Accademia Nazionale delle Scienze Dette dei XL, Regional Park Agency, Ministry of Education, Universities and Research (MIUR), Ministry of Agricultural, Food and Forestry Policies (MIPAF)).

## **Part VIII - Editorial Services**

**2011 – 2017:** Member of the Editorial Board of the Journal “Dataset Papers in Science” (ISSN: 2314-8497 online) DOI: 10.1155/2929, Hindawi Publishing Corporation).

**2011 – to date:** Reviewer service (<https://publons.com/author/1202507/laura-varone#profile>) for: Acta Oecologica, Tree Physiology, Physiologia Plantarum, International Journal of Biometeorology, Open Life Sciences (formerly Central European Journal of Biology), Journal of the Ecology and the Natural Environment, New Forests, Annals of Botany, Plant Biosystems, Flora, Plant Biology, Plant Growth Regulation, Agricultural and Forest Meteorology, Journal of Plant Physiology, Oikos, Journal of Environmental and Experimental Botany, Journal of Forest Research.

## **Part IX – Research Activities**

Brief Description	Key words
<b>Ecophysiology of Mediterranean plant species:</b> this research activity deals with using functional traits as proxy of Mediterranean plant response to environmental changes including biotic and abiotic stresses. Specifically, the focus is on morphological and physiological plant traits related to functional processes such as photosynthesis, respiration, germination, growth and water use. The objective is to highlight the different adaptative plant strategies	Chlorophyll fluorescence ( <i>direct and modulated fluorescence</i> ); gas exchange ( <i>net photosynthesis; stomatal conductance; leaf transpiration; leaf respiration</i> ); leaf anatomy; leaf morphology ( <i>morphological leaf index such as LMA and SLA</i> ) leaf water status ( <i>leaf water potential, relative water content</i> ); plant functional trait

allowing to cope with more and more intense stress factors, particularly drought stress.	covariation; photosynthetic pigment content.
<b>Phenotypic plasticity:</b> this research activity deals with analyzing different phenotypic expression of the functional traits at a population level in relationship to environmental characteristics by using a trait-based approach. The objective is to quantify the species plasticity extent and therefore analyze the species capacity to adapt to new environmental conditions due to climate change.	Acclimation; adaptation; ecotypes; growth analysis; interspecific variation; local adaptation; leaf phenology; plant functional trait covariation; plasticity indexes; intraspecific variation.
<b>Biomonitoring in urban areas:</b> this research activity deals with analyzing the impact of urban pollution on plant species as well as the role of plant species in improving air quality and microclimatic conditions and reducing the atmospheric CO <sub>2</sub> level. The objective is to expand knowledge on plant functioning in urban areas in order to improve strategies, which can maximize the ecological role of the urban vegetation and then management practices to more fully realize the benefits of the services that urban plants can provide.	Leaf metal concentration; plant CO <sub>2</sub> sequestration; pollution bioindicators in urban areas.
<b>Structural forest analysis:</b> this research activity deals with analyzing structural traits in forest ecosystems in order to monitor their functional state in relationship to different development stage, resource availability and to stress intensity. In fact, structural traits affect the main ecosystem processes such as biomass accumulation, rain interception, evapo-transpiration, photosynthesis, respiration, and soil organic matter input. The objective is to make quantitative analysis of many physical and biological processes related to vegetation dynamics in order to establish the tolerance threshold of the ecosystem forest to perturbations and then provide useful information for sustainable management particularly in Natural Protected Areas.	Carbon sequestration and storage; crown volume; leaf area density (LAD); leaf area index (LAI); plant biomass and productivity; plant density; plant height; plant total basal area; reforestation; trunk diameter at 1.30 m

## Part X – Summary of Scientific Achievements

Since the beginning of her academic activity (2004) Laura Varone has published **44** papers in ISI Journals, **6** papers in National and International Journals indexed and subjected to peer review, **3** Workshop proceedings, **3** papers on National Journals subjected to peer review and **5** chapters in books. She attended **28** International Congresses and **29** National Congresses (*see Parts XII and XIII of this CV*).

Workshop “Tutela e conservazione dell’ecosistema acquatico Lago di Posta Fibreno area SIC/ZPS IT 6050015”. – Roma 26 gennaio 2008.
  16. Gratani L., Crescente M.F., **Varone L.\*\*\*** **2008** “Capacità di risposta delle specie psammofile ai fattori di stress”. Secondo Simposio Internazionale: “Il monitoraggio costiero mediterraneo: problematiche e tecniche di sviluppo”. – Napoli, 4-6 giugno 2008.
  17. **Varone L.\***, Gratani L. **2008**. “Variazioni spaziali della struttura della macchia mediterranea e cambiamento climatico”. XVIII Congresso Nazionale della SItE “Ecologia, emergenza, pianificazione”. – Parma, 1-3 settembre 2008.
  18. Bonito A., **Varone L.\*\***, Crescente M.F., Fabrini G., Gratani L. **2008**. “Strategie di conservazione di specie rare o a rischio di estinzione”. XVIII Congresso Nazionale della SItE “Ecologia, emergenza, pianificazione”. – Parma, 1-3 settembre 2008.

19. Gratani L., **Varone L.**\*\*\*, Crescente M.F., Fabrini G., Bonito A. **2008**. "Efficienza di crescita e strategie adattative di Malcolmia littorea (L.) R. Br." 103° Congresso della Società Botanica Italiana. – Reggio Calabria, 17-19 settembre 2008.
20. Gratani L., **Varone L.**\*\*, Crescente M.F., Bonito A., Catoni R. **2010** "Growth efficiency of Italian threatened species in response to climatic factors". 46° Congress of S.I.Fs "Countdown 2010 - Save biodiversity. The Vegetation Science contribute". – Pavia 17th-18th February 2010.
21. **Varone L.**\*, Crescente M.F., Gratani L. **2010** "Changes in physiological and morphological traits of some dune species in response to air temperature" XX Congresso della SItE "Le Scienze Ecologiche Oggi". – Roma 27 - 30 settembre 2010.
22. Gratani L., Bonito A., **Varone L.**\*\*, Catoni R. **2010** "Response of *Quercus ilex* L. ecotypes to air temperatures: relative growth rate and vulnerability to water stress" XX Congresso della SItE "Le Scienze Ecologiche Oggi". – Roma 27 - 30 settembre 2010.
23. Di Cecco V., Gratani L., Frattaroli A.R., Di Martino L., **Varone L.**\*\*\*, Catoni R., **2013** "Seed traits variation and their effects on germination for high altitude mountain species". XXIII Congresso della SItE. "Ecology for a sustainable blue and green growth" – Ancona, 16 - 18 settembre 2013.
24. Gini E., **Varone L.**\*\*\*, Bonito A., Gratani L., **2013**. "Coastal dune vegetation: disturbance, recovery and spatial pattern". XXIII Congresso della SItE. "Ecology for a sustainable blue and green growth" – Ancona, 16 - 18 settembre 2013.
25. Frattaroli A.R., Catoni R., **Varone L.** \*\*\*, Gratani L. **2013** "Plasticity of physiological and morphological leaf traits in two endangered Apennine plant species in response to different altitudes". 108° Congresso della Società Botanica Italiana – Baselga di Piné (Trento), 18-20 settembre 2013.
26. Catoni R., Granata M.U., Sartori F., **Varone L.** \*\*, Gratani L. **2014**. Ecophysiological traits involved in *Corylus avellana* response to light conditions. Ventiquattresimo Congresso della S.I.T.E.– Ferrara, 15-17 Settembre 2014.
27. Granata M.U., Gratani L., Sartori F., **Varone L.** \*\*\*, Catoni R. **2014**. Conservative management strategy in an old-growth forest. Ventiquattresimo Congresso della S.I.T.E.– Ferrara, 15-17 Settembre 2014.
28. Gratani L., **Varone L.**\*\*, **2014**. The contribution of hedge in decreasing pollution levels in Rome. Giornata dell'Ambiente, Convegno "Evoluzione e controllo della qualità dell'aria sul territorio italiano ". Roma, Accademia dei Lincei, 17 ottobre 2014.
29. Gratani L., Crescente M.F., Catoni R., Puglielli G., **Varone L.**\*\*, **2017**. Plasticity of plant and leaf traits in response to environmental factors. Plant Traits 2.0 – S.B.I. – Gruppo di Lavoro per l'Ecologia. Università di Bologna, 9-10 febbraio 2017.

*The undersigned expresses her consent that the personal data provided with the present CV can be processed in compliance with European regulation no. 679/2016 and of the D.Lgs. n. 675/1996, for all matters relating to the competition procedure and the possible recruitment procedure in service.*

Place Rome  
Date February 1<sup>st</sup>, 2019

Yours Faithful
