Part VII – Research Activities

| Keywords | Brief Description |
|--------------------------------|---|
| Clinical Psychology Dynamic | Main research activities concern the relationship between the clinical psychology and the sexual behaviour, with different point of views. In |

| | |
|-----------------|--|
| Psychology | particular, my investigations regard specific psychological constructs in the dynamic and clinical psychology field. I investigated through some published researches alexithymia, attachment styles, defence mechanisms in relationship to sexual functioning. Moreover, I recently investigated the phenomenon of homophobia from different perspectives. Finally, I currently study the relationship between psychopathology and sexual function in psychiatric patients. |
| Sexology | |
| Psychosexology | |
| Psychometry | |
| Sexual Medicine | |
