ART. 1 GENERAL INFORMATION

ART. 1.1 OBJECTIVES

The Erasmus+ programme for study allows university students to increase educational opportunities aimed at acquiring the necessary skills to favour their transition to the labour market. To this purpose Erasmus+ provides students with the opportunity of studying abroad up to a maximum total of 12 months per each cycle of study and 24 months for one-cycle study programmes, regardless of the number of mobility periods (i.e.: 2 periods of 6 months or 3 periods of 4 months).

Students selected for a mobility period in one of the countries participating in the Erasmus Programme obtain the “Erasmus Student” status that comes with rights and duties, as established by the [Erasmus Student Charter](#).

Erasmus students receive a grant and have the right to attend courses and use the available structures without further registration fees (in some cases small contributions might be requested as for local students). All activities conducted abroad (with a positive outcome) will be fully recognized as long as they were previously approved by the Learning Agreement/Change Form.

As per the “Regulations on Student Mobility and the Recognition of Periods of Study and Training Abroad” (D.R. N. 1436/2015 – 13/05/2015), in the EU Erasmus+ Programme, Sapienza students have the opportunity to enjoy a period of academic mobility whose results will be fully recognized by the degree programme and the university.

Full recognition of activities carried out abroad is one of the commitments undertaken by Sapienza University of Rome with the approval of the Erasmus Policy Statement (EPS) and the "[Regulation for Student Mobility and Recognition of Study and Training Periods Abroad](#)."

ART.1.2 PARTICIPATING COUNTRIES

For Academic Year 2020-2021, students may participate in the Erasmus+ Programme for Study at universities in European Union member states and other participating countries (Programme Countries).

The full list of possible destination countries is the following:

- **Member States of the European Union:** Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Ireland, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden and United Kingdom*.

*All mobility towards the **United Kingdom**, indicated at Art. 4 as “available places” are conditioned by the developments of Brexit. They may therefore not be available.

- **Non-EU Programme Countries:** Iceland, Liechtenstein, Norway, Republic of North Macedonia, Serbia, Turkey.

ART. 1.3 MOBILITY TOWARDS CIVIS ALLIANCE UNIVERSITIES

Sapienza is a partner of the “CIVIS - A European Civic University” Alliance financed by the European Union. The alliance has been active since October 1, 2019 and includes the following universities:

- Free University of Brussels, www.ulb.ac.be
- University of Tübingen, <https://uni-tuebingen.de/>

- Autonomous University of Madrid, <http://www.uam.es>
- Aix-Marseille University, <https://www.univ-amu.fr/>
- National Kapodistrian University of Athens, <https://en.uoa.gr/>
- University of Bucharest, <https://unibuc.ro/>
- University of Stockholm, <https://www.su.se/>

CIVIS is a synonym for the transnational collaboration of civic universities with a strong tie to the social and geographical context. It will allow the mobility of 400,000 students and 50,000 university personnel, promoting multilingualism and the diversity of European culture. The alliance is committed to implementing the principles of the Bologna Process and contribute to the development of a European Education Area. The European Civis Alliance is a space for teaching, research, cultural exchange and innovative action by citizens of Europe, the Baltic and the Mediterranean.

Over the course of time, it will activate a series of shared study programmes amongst the 8 European campuses to create a true European Higher Education Area and contribute to the development of a solid and multilingual European knowledge society. Education will be based on research and innovative didactic activities that will include, besides traditional Erasmus mobility, short mobility periods, including virtual and remote ones.

Students who participate in Civis mobility periods will become part of a European community and will benefit from upgraded services and innovative didactic programmes.

Project objectives include Erasmus mobility amongst universities in the alliance. In consideration of the fact that there will be an increase in mobility amongst partners, Sapienza will reserve **10% of total funds** for the mobility of students towards Civis Universities.

There are academic coordinators for Civis Mobility in each faculty:

<https://www.uniroma1.it/it/pagina/civis-luniversita-civica-europea>

The Civis Coordinator for the Faculty of Information engineering informatics and statistics is Prof. Daniele Gorla <https://www.di.uniroma1.it/it/docenti/gorla>

ART. 1.4 MOBILITY TO SWITZERLAND

Switzerland does not take part in the Erasmus+ Programme under the same terms as Programme and Partner Countries; therefore, it **does not receive any EU funding** either for incoming or outgoing mobilities.

In order to guarantee existing mobility and cooperation, the Swiss Federal Council has developed a transitional solution, the so-called *Swiss European Mobility Programme* (SEMP). Under this programme, Swiss Universities finance the mobility of all incoming and outgoing students following the signature of specific agreements (see Art. 3. "Grants and Financial Benefits").

Students applying to Swiss universities must satisfy all the requirements described in this call (see Art. 2 "GENERAL APPLICATION REQUISITES AND ADMISSIBILITY").

ART. 1.5 DOUBLE DEGREE MOBILITY

Students selected for a DOUBLE DEGREE PROGRAMME may apply for this call only for the seats reserved for this type of programme (see Art. 4 "AVAILABLE DESTINATIONS AND PLACES").

Students of the LM Data Science can apply in all groups of agreements excluding group A and C. It is however understood that the agreements of groups B, D, E and F are not specific to Data Science and will be up to the student the verification of the feasibility of the study project based on the educational offer of the host university.

In the case of agreements in which applications of Data Science students are submitted, these will be included in the ranking list together with those of the relevant CDA, unless the maximum number of places that can be assigned to Data Science (and Cybersecurity) students is half of those available. In case of odd number of places the extra one is assigned according to the ranking of merit and in case of parity to the student of the CDA belonging to the agreement.

Students of the LM Cybersecurity can submit their applications in groups B, C and E. It is however understood that the agreements of groups B, C and E are not specific for Cybersecurity and will therefore be the responsibility of the student to verify the feasibility of the study project based on the educational offer of the host university.

In the case of agreements in which applications of students of Cybersecurity are presented, these will be included in the ranking list together with those of the relevant CDA, unless the maximum number of places that can be assigned to the students of Cybersecurity and Data Science is half of those available.

In case of odd number of places the extra one is assigned according to the ranking of merit and in case of parity to the student of the courses belonging to the agreement.

The priority order stated in the application will be a binding criterion for the assignment of the destination if the candidate is eligible for more than one destination

PLEASE NOTE: Available places and destinations are subject to modifications if the partner universities or national and European organisations regulating the programme introduce variations. Before applying, please independently verify the feasibility of studying at your preferred destinations on the websites of the individual universities.

4. **The mobility period** indicated in this call is based on inter-university agreements. These periods may vary only in specific circumstances in which the student:

- Begins the mobility period during the second semester,
- Has already enjoyed periods of mobility during the same cycle of studies (see Art. 2.2.). In this case, the maximum mobility period will be reduced to satisfy the upper limit of 12 months per cycle of studies and 24 months for one-cycle degree programmes, in agreement with the host university.

PLEASE NOTE: the overall length of the mobility period cannot, in any case, be less than 90 days

5. It will not be possible to guarantee the beginning of a mobility period in the 1st semester for destinations that have a deadline (for the submission of student documents) that is not compatible with the schedule of this call (Art. 14 “END OF PROCEDURE”).

In the mobility choice, please pay attention to the language level required for the frequency of the host institution. The requirements listed in the table have been shown by the individual partner universities. Interested students are also invited to personally investigate the true way of such requirements with respect to the required locations.

ART. 5 ACADEMIC ACTIVITIES ABROAD

1. Students must indicate the didactic activities they intend to pursue abroad on the application form. The indicated activities are not final and may be integrated upon completion of the official Learning agreement (Art. 8 “LEARNING AGREEMENT”) that will have to be approved by the Degree Programme Academic Mobility Coordinator (RAM).

2. Admissible mobility activities are:

- Attendance of courses and passing of exams;
- Preparation of graduation and/or doctoral thesis;
- Curricular traineeship (only if relevant)

3. For programme and course-related information, students should contact the agreement promoter for the destination university as indicated in Art. 4.

4. **PhD students and candidates enrolled in Specialization Schools**, after having verified their eligibility for a mobility period abroad, must agree on the educational programme abroad with the Coordinator of the

PhD Programme/Specialization School in which they are enrolled. Moreover, they will have to ascertain their insurance coverage with the relevant offices.
