

Faculty of Civil and Industrial Engineering ACADEMIC YEAR 2023-2024 Call for Applications for the admission to the Honours Programme

THE DEAN

Having regard to The Ministerial Decree n. 270 of October 22nd, 2004;

Having regard to The "Honours Programme" general Regulation issued with

the D.R n. 1545/2023;

Having regard to The resolution of the Board of Directors n. 256 of July 18th,

2023;

Having regard to The resolution of the Faculty Council of December 05th, 2023;

DECREES

The Call for Application for the admission to the Honours Programme 2023-2024 for the following Degrees:

Bachelor Degrees and Single-Cycle Master Degree:

- Environmental Engineering L-7
- Environmental Engineering for Sustainable Development L-7
- Aerospace Engineering L-9
- Chemical Engineering L-9
- Mechanical Engineering L-9
- Sustainable Building Engineering L-23
- Building Engineering Architecture LM-4 (single-cycle)

Master Degrees:

- Aeronautical Engineering LM 20 and Space and Astronautical Engineering LM-20
- Chemical Engineering LM-22
- Civil Engineering LM-23
- Transport Systems Engineering LM-23
- Environmental Sustainable Building Engineering LM-24
- Safety and Civil Protection Engineering LM-26
- Mechanical Engineering LM-33
- Environmental Engineering for Sustainable Development LM-35

- Environmental Engineering LM-35
- Nanotechnology Engineering LM-53

1. Admission requirements, candidate selection criteria and available positions

For the above-mentioned Degrees, the admission requirements, evaluation of applicants and available positions are specified in the Honour Programme Forms.

ENVIRONMENTAL ENGINEERING L-7	
Admission	Students enrolled in the A.Y. 2022-2023 for the first time in the first
requirements	year who, by October 30th, 2023 have acquired all the credits
_	required at the first year with a GPA of no less than 27/30
Type of selection	Comparative
Number of available	The available positions are 10
positions	Students enrolled in the School for Advanced Studies of Sapienza
	will be admitted as supernumerary students
Further information	The Honours Programme involves extra educational activities in
	addition to those included in the Study Programme. The general
	outline of such activities is defined by the Area Council of the
	Programme in Environmental Engineering and is specifically
	detailed for each student by the assigned tutor. Activities to be
	performed include detailed disciplinary/interdisciplinary studies,
	seminars and internships.
	The overall duty assigned to each student ranges from a minimum
	of 150 and a maximum of 200 hours per year.
Mid-term	Mid-term assessment of fulfilment of the criteria for participation to
requirements	the Honours Programme will be done yearly by the Chair of the
	Programme in Environmental Engineering by January 15th on the
	basis of reports from the tutors.
	Students will have to pass by December 31st all exams of the
	enrolment year with a GPA of at least 27/30; alternatively, the lowest
	grade can be excluded from the calculation of the GPA, but in this
	case, this must exceed 28/30.
Final requirements	Final assessment of fulfilment of the criteria for completion of the
	Honours Programme will be done yearly by the Chair of the
	Programme in Environmental Engineering by January 15 th on the
	basis of reports from the tutors.
	Students will have to pass by December 31st all exams of the last
	year with a GPA of at least 27/30; alternatively, the lowest grade
	can be excluded from the calculation of the average grade, but in
	this case, this must exceed 28/30.

Contacts	Contact information: Chair of the Programme in Environmental
	Engineering, Prof. Michele Cercato (michele.cercato@uniroma1.it)
	Prof. Alessandra Polettini (alessandra.polettini@uniroma1.it).

ENVIRONMENTAL	L ENGINEERING FOR SUSTAINABLE DEVELOPMENT L-7
Admission	Students enrolled in the A.Y. 2022-2023 for the first time in the first
requirements	year who, by October 30th, 2023 have acquired all the credits
1	required at the first year with a GPA of no less than 27/30
Type of selection	Comparative
Number of available	The available positions are 10
positions	Students enrolled in the School for Advanced Studies of Sapienza
positions	will be admitted as supernumerary students
Further information	The Honours Programme provides for admitted students
Tuttier information	alternatively or integrated:
	a) Theoretical and methodological activities, such as, for example,
	participation in one or more courses indicated by the Area Council,
	participation in seminars proposed and / or organized by members
	of the Area Council, training activities at external locations;
	b) Application activities relating to one or more topics covered
	during the theoretical and methodological activities.
	The student's activities in the Honours Programme are subject to test.
	Each admitted student will be assigned a tutor who will follow the
	development and collaborate in organizing the activities in
	agreement with the student.
	The Honours Programme may include periods of study and / or
	internships at external locations, functional to the achievement of the
	educational objectives of the course of study. ERASMUS students,
	who carry out part of their curriculum at a Host University, can carry
	out part of the Honours Programme at the foreign Institution that
	hosts them.
	The overall duty assigned involves a maximum commitment of 150
	hours per year for the student, and it does not provide with the
	recognition of CFUs that can be used for the achievement of the
	Degree issued by Sapienza.
Mid-term	In order to continue on the Honours Programme, the student must
requirements	pass all the tests scheduled for the year of attendance.
Final requirements	In order to complete the Honour Programme, the student, in
1 mai requirements	addition of having carried out the activities of the Programme, must
	have acquired, within the legal duration of the course of study, all
	the required credits and have obtained a GPA of no less than 27/30
Contacts	Contact information:
	Franca. Rieti (franca.rieti@uniroma1.it)
	Prof.Jacopo.Tirillò (jacopo.tirillo@uniroma1.it)

	AEROSPACE ENGINEERING L-9
Admission	Students enrolled in the A.Y. 2022-2023 for the first time in the first
requirements	year who, by October 30th, 2023 have acquired all the credits
	required at the first year with a GPA of no less than 27/30
Type of selection	Comparative
Number of available	The available positions are 15.
positions	Students enrolled in the School for Advanced Studies of Sapienza
	will be admitted as supernumerary students
Further information	Students admitted to the Honour Programme will be involved on theoretical and methodological activities (including lectures, seminars, practical and experimental activities) held by the Faculty or other qualified Institutions, as well as to individual application and professional training activities and / or in groups, coordinated by Faculty professors. Each student admitted to the Honour Programme will be assigned a tutor, who will follow the student career and collaborate in the organization of the activities agreed with the student.
	The set of educational activities involves a maximum commitment of 150 hours per year.
Mid-term	At the end of the A.Y. 2023-2024, each student admitted to the
requirements	Honour Programme will be evaluated by the tutors. In the event of a negative evaluation, the Chair of the Academic Council may order the non-admission to the following year of the Honour Programme. In order to continue on the Honour Programme, the student, in addition to having carried out the activities of the course, must have acquired all the university training credits (CFU) required for the second year of the Bachelor Degree and have obtained a GPA of no less than 27/30.
Final requirements	In order to complete the Honour Programme, the student, in
	addition to having carried out the activities of the Programme, must
	have acquired, within the legal duration of the Bachelor Degree, all
	the required credits and have obtained a GPA of no less than 27/30.
Contacts	Further information: Angela Lo Bello (angela.lobello@uniroma1.it)

CHEMICAL ENGINEERING L-9	
Admission	Students enrolled in the A.Y. 2022-2023 for the first time in the first
requirements	year who, by October 30th, 2023 have acquired all the credits
	required at the first year with a GPA of no less than 27/30.
Type of selection	Comparative
Number of available	The available positions are 10.
positions	Students enrolled in the School for Advanced Studies of Sapienza
	will be admitted as supernumerary students.
Further Information	The overall activities of the Honour Programme extend over a
	minimum of 100 hours and a maximum of 150 hours per year.

Mid-term	In order to continue on the Honours Programme, students must h	nave
requirements	passed by October 30th 2023 all the exams required by their con-	urse
	for the year of attendance, with a GPA of no less than 27/30, and n	nust
	have received a positive assessment of their specific assignments	s.
Final requirements	In order to complete the Honours Programme, students must h	nave
	completed their specific assignments and must have acquired, wi	thin
	the legal duration of the course of study, all the expected ECTS v	with
	a GPA of no less than 27/30.	
Contacts	Further information: Prof. Cecilia Bar	rtuli
	(cecilia.bartuli@uniroma1.it)	

	MECHANICAL ENGINEERING L-9
Admission	Students enrolled in the A.Y. 2022-2023 for the first time in the first
requirements	year who, by October 30th, 2023 have acquired all the credits
	required at the first year with a GPA of no less than 27/30.
Type of selection	Comparative
Number of available	The available positions are 15.
positions	Students enrolled in the School for Advanced Studies of Sapienza
	will be admitted as supernumerary students.
Further Information	The set of educational activities involves a maximum commitment
	of 150 hours per year.
Mid-term	In order to continue on the Honours Programme, the student must
requirements	have passed all the exams required by the course for the year of
	attendance with a GPA of no less than 27/30.
Final requirements	In order to complete the Honour Programme, the student, in
	addition of having carried out the activities of the Programme,
	must have acquired, within the legal duration of the course of
	study, all the required credits and have obtained a GPA of no less
	than 27/30.
Contacts	For further information refer to Angela Lo Bello
	(angela.lobello@uniroma1.it)

SUSTAINABLE BUILDING ENGINEERING L-23	
Admission	Students enrolled in the A.Y. 2022-2023 for the first time in the first
requirements	year who, by October 30th, 2023 have acquired all the credits
	required at the first year with a GPA of no less than 27/30.
Type of selection	Comparative
Number of available	The available positions are 7.
positions	Students enrolled in the School for Advanced Studies of Sapienza
	will be admitted as supernumerary students.
Further Information	The Honour Programme consists of additional training activities.
	These activities are indicated in the general terms by the Didactic

	Area Council in Sustainable Building Engineering and then defined in detail by the individual tutor of the student who has decided to undertake the Honour Programme. The set of educational activities involves a maximum commitment of 100 hours per year.
Mid-term	The President of the Didactic Area Council verifies the possession
requirements	of the requisites on the basis of a report drawn up by the tutor. In
requirements	order to continue on the Honours Programme, students must have
	passed all the exams required by their course for the year of
	attendance, with a GPA of no less than 27/30.
Final requirements	In order to complete the Honour Programme, the student, in
	addition to having carried out the activities of the Programme,
	must have acquired, within the legal duration of the Degree, all the
	required credits and have obtained an average exam score of not
	less than 27/30.
Contacts	Further information: segreteriadirieti@uniroma1.it

BUILDING I	ENGINEERING - ARCHITECTURE LM-4 (SINGLE-CYCLE)
Admission	Students enrolled in the A.Y. 2022-2023 for the first time in the third
requirements	year who, by October 30th, 2023 have acquired at least 153 credits
	with a GPA* of no less than 27/30.
Type of selection	Comparative
Number of available	The available positions are 10.
positions	Students enrolled in the School for Advanced Studies of Sapienza
	will be admitted as supernumerary students.
Further Information	Student activities in the Honour Programme are evaluated. Each
	student admitted to the Honour Programme will be assigned a
	tutor who will follow the student career and collaborate in the
	organization of the activities agreed with the student. The Honour
	Programme can involve formative activities or study period in Italy
	as well as abroad, at Universities or research Institutions with
	which the Course of Study has agreements.
	The set of educational activities involves a minimum commitment
	of 100 hours per year.
Mid-term	In order to continue on the Honours Programme, students must
requirements	have passed all the exams required by their course for the year of
	attendance, with a GPA* rounded to the unit of not less than 27/30.
Final requirements	In order to complete the Honour Programme, the student, in
	addition to having carried out the activities of the Programme,
	must have acquired, within the legal duration of the Degree, all the
	required credits and have obtained a GPA* truncated at unit of not
	less than 27/30.
Contacts	For further information contact Roberta Cannata
	(roberta.cannata@uniroma1.it), 06.4458.5187

Note	*The GPA is weighted with the credits of each exam - 30 cum laude
	is calculated as 31

AERONAUTICAL ENGINEERING LM-20 - SPACE AND ASTRONAUTICAL ENGINEERING		
	LM-20	
Admission	Students enrolled in the A.Y. 2022-2023 for the first time in the first	
requirements	year who, by October 30th, 2023 have acquired all the credits	
	required at the first year with a GPA of no less than 27/30.	
Type of selection	Comparative	
Number of available	The available positions are 20.	
positions	Students enrolled in the School for Advanced Studies of Sapienza	
	will be admitted as supernumerary students.	
Further information	Students admitted to the Honour Programme will be involved on	
	theoretical and methodological activities (including lectures,	
	seminars, practical and experimental activities) held by the	
	Professors of the Faculty or from other qualified Institutions, as	
	well as to individual application and professional training	
	activities and / or in groups, coordinated by the Professors of the	
	Faculty. Each student admitted to the Programme will be assigned	
	a tutor, who will follow the student career and collaborate in the	
	organization of the activities agreed with the student.	
	The set of educational activities involves a maximum commitment	
	of 150 hours per year.	
Final requirements	In order to complete the Honour Programme, the student, in	
	addition to having carried out the activities of the Programme,	
	must have acquired, within the legal duration of the Degree, all the	
	required credits and have obtained a GPA of no less than 27/30.	
Contacts	Further information: Angela Lo Bello (angela.lobello@uniroma1.it)	

CHEMICAL ENGINEERING LM-22		
Admission	Students enrolled in the A.Y. 2022-2023 for the first time in the first	
requirements	year who, by October 30th, 2023 have acquired all the credits	
	required at the first year with a GPA of no less than 27/30.	
Type of selection	Comparative	
Number of available	The available positions are 10. Students enrolled in the School for	
positions	Advanced Studies of Sapienza will be admitted as supernumerary	
	students.	
Further Information	The overall activities of the Honour Programme will extend over a	
	minimum of 100 hours and a maximum of 150 hours per year.	
Final requirements	In order to complete the Honour Programme, the student, in	
	addition to having carried out the activities of the Programme,	

		acquired, within the edits and have obta	O	0	
Contacts	Further	information:	Prof.	Cecilia	Bartuli
	(cecilia.bar	tuli@uniroma1.it)			

CIVIL ENGINEERING LM 23		
Admission	Students enrolled in the A.Y. 2022-2023 for the first time in the first	
requirements	year who, by October 30th, 2023 have acquired all the credits	
	required at the first year with a GPA of no less than 27/30.	
Type of selection	Comparative	
Number of available	The available positions are 7.	
positions	Students enrolled in the School for Advanced Studies of Sapienza	
	will be admitted as supernumerary students.	
Further Information	The Honours Programme provides alternatively or integrated: a) Theoretical and methodological activities, such as, for example,	
	participation in one or more courses indicated by the Area Council, participation in seminars proposed and / or organized by members	
	of the Area Council, training activities at external locations agreed	
	in line with the specific objectives of the individual career;	
	b) Application activities relating to one or more topics covered	
	during the theoretical and methodological activities	
	c) Internships in companies and / or organizations, agreed and in	
	line with the specific objectives of the individual career.	
	The student's activities in the Honours Programme are subject to	
	test. Each admitted student will be assigned a tutor, who will	
	follow the development and collaborate in organizing the activities	
	in agreement with the student.	
	The overall activities of the Honour Programme will extend over a	
	minimum of 100 hours and a maximum of 200 hours per year.	
Final requirements	In order to complete the Honour Programme, the student, in	
	addition to having carried out the activities of the Programme,	
	must have acquired, within the legal duration of the Degree, all the	
	required credits and have obtained a GPA of no less than 27/30.	
Contacts	For further information contact: Ms. Bruna Zara	
	(bruna.zara@uniroma1.it).	

TRANSPORT SYSTEMS ENGINEERING LM-23		
Admission	Students enrolled in the A.Y. 2022-2023 for the first time in the	
requirements	first year who, by October 30th, 2023 have acquired all the credits	
	required at the first year with a GPA of no less than 27/30.	
Type of selection	Comparative	
Number of available	The available positions are 4.	
positions		

	Students enrolled in the School for Advanced Studies of Sapienza
	will be admitted as supernumerary students.
Further information	The Honour Programme includes, for admitted students,
	alternative or integrative activities:
	a) Theoretical and methodological activities, such as participation
	to courses indicated by the Area Council, seminars proposed
	and/or organised by members of the Area Council, external
	educational initiatives;
	b) Applicative activities concerning topics of theoretical and
	methodological activities.
	The activities of the student in the Honour Programme are subject
	to test. To each admitted student, it will be assigned a tutor
	teacher will be assigned to each admitted student, who will follow
	its development and will cooperate with her/him in the
	organization of the activities.
Final requirements	In order to complete the Honour Programme, the student must
	have carried out the planned activities and have acquired, by the
	legal duration of the course of study, all the planned 120 ETCS
	and have obtained a GPA of no less than 27/30.
Contacts	For further information contact:
	Prof. Natalia Isaenko (natalia.isaenko@uniroma1.it)
	Prof. Gaetano Fusco (gaetano.fusco@uniroma1.it)

ENVIRONMENTAL AND SUSTAINABLE BUILDING ENGINEERING LM-24		
Admission	Students enrolled in the A.Y. 2022-2023 for the first time in the	
requirements	first year who, by October 30th, 2023 have acquired all the credits	
	required at the first year with a GPA of no less than 27/30.	
Type of selection	Comparative	
Number of available	The available positions are 7.	
positions	Students enrolled in the School for Advanced Studies of Sapienza	
	will be admitted as supernumerary students.	
Further information	The Honour Programme includes, for admitted students,	
	alternative or integrative activities:	
	a) Theoretical and methodological activities, such as participation	
	to courses indicated by the Area Council, seminars proposed	
	and/or organised by members of the Area Council, external	
	educational initiatives;	
	b) Applicative activities concerning one or more topics of	
	theoretical and methodological activities.	
	The activities of the student in the Honour Programme are subject	
	to test. Each admitted student will be assigned a tutor who will	
	follow his/her development and will cooperate with her/him in	
	the organization of the activities.	

Final requirements	To successfully complete the Honour Programme, the student
	must have carried out the planned activities and have acquired,
	by the legal duration of the course of study, all the planned 120
	ETCS with a GPA of no less than 27/30.
Contacts	Further information: segreteriadirieti@uniroma1.it

SAFETY AND CIVIL PROTECTION ENGINEERING LM-26		
Admission	Students enrolled in the A.Y. 2022-2023 for the first time in the first	
requirements	year who, by October 30th, 2023 have acquired all the credits	
	required at the first year with a GPA of no less than 27/30.	
Type of selection	Comparative	
Number of available	The available positions are 5.	
positions	Students enrolled in the School for Advanced Studies of Sapienza	
	will be admitted as supernumerary students.	
Final requirements	In order to complete the Honours Programme, the student, in	
	addition to carry out all the expected activities of the Programme,	
	must have acquired all the required credits, within the legal	
	duration of the course of study, and obtained a GPA of no less than	
	27/30.	
Contacts	For further information please refer to Prof. Mara Lombardi

NANOTECHNOLOGY ENGINEERING LM-53					
Admission	Students enrolled in the A.Y. 2022-2023 for the first time in the first				
requirements	year who, by October 30th, 2023 have acquired all the credits				
	required at the first year with a GPA of no less than 28/30.				
Type of selection	Comparative				
Number of available	The available positions are 10.				
positions	Students enrolled in the School for Advanced Studies of Sapienza				
	will be admitted as supernumerary students.				
Further information	Students admitted to the Honour Programme will dedicate				
	themselves to the following additional training activities:				
	- participation to theoretical and methodological activities				
	(including lessons, seminars, practical and experimental activities)				
	held by the Professors of the Faculty or from other qualified				
	Institution;				
	- participation to academic and/or industrial research activities in				
	the field of experimental, computational and design modelling				
	nanotechnologies;				
	- participation to schools, conferences, seminars, national and				
	international workshops related to different aspects of				
	nanotechnologies and nanoscience.				

	Additional training activities can also be identified within the				
	didactic activities organized by the School for Advanced Studies of				
	Sapienza University of Rome.				
	All training activities involve an annual hourly commitment for the				
	student between 100 and 150 hours.				
	The activities carried out do not give rise to the recognition of				
	credits that can be used to obtain university degrees issued by				
	Sapienza University of Rome.				
Final requirements	In order to positively conclude the Honour Programme, students				
	have to complete the activities specifically foreseen in the path to				
	acquire all the foreseen credits within the legal duration of the				
	Degree and to have a GPA of no less than 28/30.				
Contacts	Students are invited to check the website				
	https://web.uniroma1.it/nano/regole-e-info/regolamento-percorso-				
	eccellenza. For further information please contact Valerio Nardone				
	(valerio.nardone@uniroma1.it) for technical matters and Prof.				
	Alessio Tamburrano, Chair of the Didactic Area Board,				
	(alessio.tamburrano@uniroma1.it) for didactic matters.				

2. –Application: ON-LINE submission and documents

Within the deadline indicated below, the student must submit the application for the comparative evaluation by using the procedure provided on http://didsap.ing.uniroma1.it/ in the section "Sezione Bandi Didattica". Students who want to apply must have registered a personal Sapienza university e-mail account and select the Degree course. To apply on the didsap platform, select "Tutor".

The student must fill in attachment A of this Call and, together with the list of the registered exams downloadable form InfoStud, upload them in a single pdf file of maximum 4 Mb.

3. Evaluation of titles and ranking

The applications, sent within the deadline, will be evaluated by Selection Boards proposed by the respective Faculty Council and nominated by the Faculty Dean. The Boards will set up a ranking for each program containing the students who applied for the Honour Programme, based on the sum of the exams taken and other criteria which might be evaluated at the discretion of the Selection Board. In case of equal score, priority will be given to younger candidates.

Rankings will be published on the Trasparenza website https://web.uniroma1.it/trasparenza/ and on the Faculty website https://www.ing.uniroma1.it/percorso-di-eccellenza on **January 19**th, **2024**

4. General structure of the program

- a) **Objectives and definition**. The Honour Programme aims to enhance the education of deserving students interested in furthering activities concerning cultural integration and scientific research methods.
- b) **Activities** The Honour Programme consists of formative activities in addition to the compulsory ones. These activities are partially programmed by the Faculty Council and consist of disciplinary or interdisciplinary studies, seminars and internships partially defined with each student on the basis of their cultural and scientific interests.

Added formative activities can be selected amongst the various activities organized by the School for Advanced Studies of Sapienza for students not belonging to the SAS too.

The complex of training activities implies for the student a minimum commitment of 100 hours and a maximum of 200 hours per year and it does not give any rise to the recognition of the university educational credits (ects), which can be used to obtain university degrees issued by Sapienza University of Rome. The number of hours of each program is specified in the attachments. Each student admitted to the program will receive a tutor professor, who will follow the student's Honour Programme and will organize with him the activities agreed. The tutor professor, at the end of each academic year, will report on the student's Honour Programme in order to verify the intermediate, where required, and final requirements.

c) **Final certification** – At the achievement of the educational qualification, the Faculty Council will certify the positive conclusion of The Honour Programme for each student. The Student Secretariat, obtained this certification, will provide to the registration of The Honour Programme in order to record it in the student's career.

Together with this certification, the University grants to the student a prize equal to the amount of fees paid in the last year of the course. The Student Secretariats provide the refund on the basis of the aforementioned certification.

5. Responsible of the administrative procedure and jurisdiction

In accordance with the articles 4, 5 and 6 of the Italian Law n. 241/90, Dr. Apollonia Matrisciano (lia.matrisciano@uniroma1.it) has been designated as responsible for this administrative procedure.

For further information contact: Dr. Daniela De Angelis (daniela.deangelis@uniroma1.it).

For any dispute, the Court of Rome has exclusive jurisdiction.

6. Final regulation

Personal data provided for the application to the call will be used in accordance of the dispositions of rightfulness and protection of privacy as per Legislative Decree n. 196/2003. These data will be used only for institutional aims of the University and, in particular, for the fulfilment of this call. Relatively these, interested parties can exercise the rights as per aforementioned Legislative Decree.

The deadline to submit the application is January 12th, 2024

The Dean Prof. Carlo Massimo Casciola

ANNEX A

ACADEMIC YEAR 2023-2024 Call for the admission to the Honour Programme Faculty of Civil and Industrial Engineering

The student must **fill in** the present **form** in its entirety and send it **together with the list of the registered exams** downloadable from InfoStud. The arrangements and the deadline are indicated in the Call, for each program.

The undersigned
