

Procedura selettiva di chiamata per il reclutamento di 1 posto di RTT senza riserva di partecipazione ai sensi dell'articolo 24, comma 3, della legge 30 dicembre 2010, n. 240, così come modificato dall'art. 14, comma 6-decies, del decreto-legge 30 aprile 2022, n. 36, convertito, con modificazioni, dalla legge 29 giugno 2022 n. 79, presso il Dipartimento di Medicina Molecolare - codice concorso: 2024RTTA007 - Facoltà di Farmacia e Medicina Gruppo Scientifico disciplinare: 06/MEDS-26; Settore Scientifico Disciplinare MEDS-26/A.

D.R. n. 1320/2024 dell'11.06.2024

ALLEGATO B

Curriculum Vitae

NOME e COGNOME **Sonia Coni**

Place **Rome (Italy)**

Date **July 24th, 2024**

Part I – General Information

Full Name	Sonia Coni
E-mail	
Spoken Languages	Italian (mother tongue); English; French

Part II – Education

Type	Year	Institution	Notes (Degree, Experience,...)
PhD	2010	SAPIENZA-University of Rome	phD in Endocrinology and Molecular Medicine
Licensure	2007	Università degli studi della Tuscia - Viterbo	Licensure in Biology
University graduation	2006	SAPIENZA-University of Rome	Master's Degree in Genomic Biotechnology (Graduation: 110/110 " <i>summa cum laude</i> ")
University graduation	2004	SAPIENZA-University of Rome	Bachelor's Degree in Biotechnology (Graduation: 110/110 " <i>summa cum laude</i> ")

Part III – Appointments

IIIA – Academic Appointments

Start	End	Institution	Position
07-10-20	Today	SAPIENZA - University of Rome - Department of Molecular Medicine	Research contract (RtdA) SSDMED/46 now MEDS-26/A
01-06-20	31-07-20	Istituto Pasteur - Cenci Bolognetti Foundation	Research contract
01-06-19	31-05-20	SAPIENZA - University of Rome - department of Molecular Medicine	Research fellow (Assegnista di ricerca - Law 240/2010) SSD MED/04 now MEDS-02/A
01-12-18	31-05-19	Istituto Pasteur - Cenci Bolognetti Foundation	Research contract
01-04-14	23-11-18	SAPIENZA - University of Rome - department of Molecular Medicine	Research fellow (Assegnista di ricerca - Law 240/2010) SSD MED/04 now MEDS-02/A
01-07-13	31-07-13	CNRS (Centre Nationale de la Recherche Scientifique) - Institute de Biologie Valrose (iBV) – Université «Sophia Antipolis» Nice, France (lab of Dr Pascal Therond)	Researcher at CNRS - Université «Sophia Antipolis»
01-07-11	30-06-13	CNRS - Centre Nationale de la Recherche Scientifique - Institute de Biologie Valrose (iBV), Université «Sophia Antipolis» Nice, France (lab of Dr Pascal Therond)	Post-doctoral fellow at the CNRS - Université «Sophia Antipolis»
01-02-10	30-06-11	SAPIENZA - University of Rome - Department of Experimental Medicine	Research fellow (Assegnista di ricerca - Law 449/97) SSD MED/04 now MEDS-02/A

IIIB – Qualifications and Other Appointments

Start	End	Institution	Position
13-01-20	13-01-29	National Scientific Qualification (ASN)	Abilitazione scientifica nazionale SC 06/N1 – Scienza delle professioni sanitarie e delle tecnologie mediche applicate - II fascia – SSD MED/46 (Now MEDS-26/A)
21-05-21	21-05-30	National Scientific Qualification (ASN)	Abilitazione scientifica nazionale SC 06/A2 - Patologia Generale e

		Patologia Clinica - II fascia – SSD MED/04 (Now MEDS-02/A)
--	--	---

Part IV – Teaching experience

Year	Institution	Lecture/Course
A.A. 2023/ 2024	SAPIENZA- University of Rome	Interdisciplinary course 1 - “Technical Sciences of Laboratory Medicine” (1 CFU) for the Master Course “Healthcare professions sciences and diagnostic techniques”
A.A. 2023/ 2024	SAPIENZA- University of Rome	“Elective teaching activity” (ADE) for the master's degree course in “Medicine and Surgery” 3rd year channel F (La Sapienza University of Rome), 3rd year (0.2 CFU)
A.A. 2023/ 2024	SAPIENZA- University of Rome	Advanced technologies in laboratory diagnostics - “Technical Sciences of Laboratory Medicine” (2 CFU) for the First Level Degree “Biomedical Laboratory Technologies” – course A
A.A. 2023/ 2024	SAPIENZA- University of Rome	Teaching activity for elective internship (“Medicine and Surgery” 3rd year channel F – 25 hours)
A.A. 2023/ 2024	SAPIENZA- University of Rome	Teaching activity in the phD program of “Molecular Medicine”
AA 2022/ 2023	SAPIENZA- University of Rome	Teaching activity for elective internship (“Medical Molecular and Cellular Biohecnologies ” 2nd year– 7 hours)
AA 2022/ 2023	SAPIENZA- University of Rome	“Elective teaching activity” (ADE) for the Master's Degree course in “Medicine and Surgery” 3rd year channel F (La Sapienza University of Rome), 3rd year (0.2 CFU)
A.A. 2022/ 2023	SAPIENZA- University of Rome	Advanced technologies in laboratory diagnostics - “Technical Sciences of Laboratory Medicine” (2 CFU) for the First Level Degree “Biomedical Laboratory Technologies” – course A

A.A. 2021/ 2022	SAPIENZA- University of Rome	“Technical Sciences of Laboratory Medicine” (1 CFU) for the Master Course “Healthcare professions sciences and diagnostic techniques”
A.A. 2021/ 2022	SAPIENZA- University of Rome	Advanced technologies in laboratory diagnostics - “Technical Sciences of Laboratory Medicine” (1 CFU) for the First Level Degree “Biomedical Laboratory Technologies” – course A
AA 2021/ 2022	SAPIENZA- University of Rome	“Elective teaching activity” (ADE) for the master's degree course in “Medicine and Surgery” 3rd year channel F (La Sapienza University of Rome), 3rd year (0.2 CFU)

Part V - Participation in International and National Meetings

Oral Presentations

2022	INVITED SPEAKER at the “ <i>Sixth International Conference on Polyamines: Biochemical, Physiological and Clinical Perspectives</i> ”, Tivoli, Rome (Italy) for the talk titled: “ <i>Locomotor function in Drosophila Melanogaster is controlled by a CNBP/ODC/polyamines translational axis</i> ”
2021	Oral presentation at the SIPMeT Young Scientist Meeting “ <i>Molecular pathology: from bench to bedside</i> ”, Perugia (Italy) for the talk titled: “ <i>CNBP is required for locomotor activity in Drosophila melanogaster through the translational control of ODC/polyamine axis</i> ”
2021	INVITED SPEAKER at the “ <i>Gordon Research Conference (GRC) on Polyamines 2021</i> ” in Waterville, New Hampshire, USA to give a talk within the session “ <i>Translational Regulation by Polyamines</i> ”. The event was cancelled because of COVID emergency
2017	INVITED SPEAKER at the “ <i>22nd Word Congress on Advances in Oncology and 20th International Symposium on Molecular Medicine</i> ” for the talk “ <i>Targeting Gli Acetylation in Shh-Medulloblastoma: a successful preclinical approach</i> ”, Atene, Grecia
2017	Chairman at the “ <i>22nd Word Congress on Advances in Oncology and 20th International Symposium on Molecular Medicine</i> ”

Organization

2022	Member of the Local Committee at the “ <i>Sixth International Conference on Polyamines: Biochemical, Physiological and Clinical Perspectives</i> ”, Tivoli, Rome (Italy)
------	---

Poster Presentations

2022	SIPMeT conference: "Pathophysiology of Disease", Ancona, Italy. Presentation title: " <i>Targeting polyamines/eIF5A/MYC translation strongly reduces colorectal cancer growth in preclinical mouse models</i> "
2016	European Association for Cancer Research (EACR) Manchester, UK. Presentation Title: " <i>Selective inhibition of HDAC1 and HDAC2 counteracts Medulloblastoma growth n mouse models through Gli1 acetylation</i> "
2010	52nd Annual Meeting of the Italian Cancer Society "Lost in translation: bridging the gap between cancer research and effective therapies, Rome. Presentation title: " <i>Epigenetic control of medulloblastoma cell growth: Identification of Gli Acetylation as a Key Transcriptional checkpoint of Hedgehog Signaling</i> "
2010	The EMBO Meeting "Advanced in the life sciences" Barcelona Spain. Presentation title: " <i>Epigenetic control of neural cell growth: Identification of Gli1 Acetylation as a Key Transcriptional checkpoint of Hedgehog Signaling</i> "

Part VI - Society memberships, Awards and Honors

Year	Title
2021	Ordinary Membership to Italian Society of Pathology and Translational medicine (SIPMeT)
2022	SIPMet Award as a best POSTER, Ancona 2022. Poster Title: " <i>Targeting polyamines/eIF5A/MYC translation strongly reduces colorectal cancer growth in preclinical mouse models</i> "
2011-2013	Awarded by Institute Pasteur - Fondazione Cenci Bolognetti for a two-years research fellowship for research abroad
2023	Associate Editor for the journal Frontiers in Molecular Medicine (special Issue " Epigenetics and stem cell therapy in cancer and diseases ")

Part VII – Courses and Certifications

2018	Technical course	European Center for Brain Research (C.E.R.C), Santa Lucia Foundation, Rome, Italy	FELASA accredited course - Cat. B (N. F023/09, #06/2018). Functions: A, C, D. covered the species Mouse and Rat. Additional task specific modules: 10, 20, 21, 22.
2019	Technical course	ISS, Istituto Superiore di Sanità	"Disease models for preclinical

			experimentation in Oncology" E.C.M.
--	--	--	---

Part VIII - Funding Information [grants as PI-principal investigator or I-investigator]

Year	Title	Program	Grant value
2022	PI – Role of intestinal microbiota in regulating the epigenetic landscape in colorectal cancer stem cells (CRC-CSC)	PRIN under 40	
2017	PI - Role of phosphatases in the Hedgehog signaling pathway: calcineurin as a possible positive modulator in Shh-mediated transcriptional activation	Starting Grant YOUNG – SAPIENZA (Avvio alla Ricerca)	
2015	PI - The CNBP / AMPK axis as a potential therapeutic target in type 2 myotonic dystrophy	Starting Grant YOUNG – SAPIENZA (Avvio alla Ricerca)	
2014	PI - Description of a novel mechanism for the translation regulation of the c-myc oncogene and its pro-tumorigenic role in colorectal cancer (CRC)	Starting Grant YOUNG – SAPIENZA (Avvio alla Ricerca)	
2023	I - Understanding the role of CNBP-eIF5A-polyamine metabolism in DM2 pathogenesis	Telethon #GMR22T1027;	
2020	I - Targeting energy and redox alterations in colorectal cancer	AIRC #25833;	
2018	I - Analysis of the DM2 pathogenic mechanisms using Drosophila as model system	AFM-Telethon #21025	
2018	I - Targeting MYC translation in colorectal cancer	Institute Pasteur, Cenci Boognetti Foundation (prot. n. 57).	
2016	I – The role of Notch signaling in leukemia microenvironment: identification and characterization of novel tumor niche(s) in T-cell Acute Lymphoblastic Leukemia	SAPIENZA Scientific Research - Ricerca scientifica di Ateneo (Ateneo Grande)	
2015	I - Pro – tumorigenic role of CNBP-c-MYC Axis in colorectal cancer tumorigenesis	AIRC #17575	

2008	I - Research of new high - penetrance mutations responsible for hereditary forms of breast and ovarian tumors and biomolecular characterization of newly identified pathogenetic variants of BRCA1	PRIN	
2007	I - Hedgehog signaling and brain tumorigenesis: role of novel tumor suppressor pathways	AIRC	-

Part IX – Research Activities

Keywords	Brief Description
Epigenetics and cancer	Epigenetic alterations in the pathogenesis of brain tumors. Studies about the transcriptional control of cell growth <i>in vitro</i> (neuronal cells) and <i>in vivo</i> (mouse models of spontaneous tumorigenesis).
Medulloblastoma	Characterization and investigation of the molecular mechanisms involved the pathogenesis of Medulloblastoma (Mb) using preclinical models and <i>in vitro</i> approaches.
Hedgehog pathway	Transcriptional and translational analysis of the Hedgehog signaling pathway aim to detect novel druggable targets for cancer therapy.
Polyamines	Role of polyamine metabolism in cancer (medulloblastoma) and in muscular diseases, using preclinical models of tumorigenesis and <i>Drosophila Melanogaster</i> as animal models.
Colorectal cancer	Targeting of polyamine metabolism in the pathogenesis of Colorectal Cancer (CRC) as an effective therapeutic strategy, using <i>in vivo</i> approaches
DM2 (Type 2 Myotonic Dystrophy)	Characterization of the novel CNBP-ODC-polyamine axis in muscle function and diseases.

- Main results achived:

1. Epigenetic alterations in the pathogenesis of brain tumors. **i)** Identification of the interplay between acetylation and ubiquitination in the regulation of Hedgehog signaling during cerebellum development and Medulloblastoma growth through *in vitro* studies and mouse models **ii)** Identification of Gli1 and Gli2 acetylation as inhibitor checkpoint of Hedgehog dependent cell growth, *in vitro* and in preclinical mouse models of spontaneous medulloblastoma **iii)** contribution to the studies aim at the identification of SALL4 as a component of the GLI/HDAC/REN-Cul3 complex regulating hedgehog signaling-dependent tumor growth
2. Characterization and investigation of the molecular mechanisms involved the pathogenesis of Hedgehog-dependent Medulloblastoma using preclinical models and *in vitro* approaches. **i)**identification of the selective inhibition of class I HDAC as an efficient anticancer strategy in preclinical

model of spontaneous medulloblastoma **ii)** identification of Gli1 phosphorylation by MEKK1 as inhibitory signal in the hedgehog pathway

3. Transcriptional and translational analysis of the Hedgehog signaling pathway aim to detect novel druggable targets for cancer therapy. **i)** Contribution to the identification of a novel non canonical mechanism in the Hedgehog pathway, mediated by AMPK which controls medulloblastoma tumor growth though in vitro and in vitro approaches

4. Role of polyamine metabolism in brain cancer **i)** characterization of the novel axis: CNBP/ODC/polyamines, involved in the regulation of medulloblastoma growth

5. Targeting polyamine metabolism in colorectal cancer (CRC) **i)** identification and characterization of a novel translational axis: polyamine/eIF5A-hypusinated/myc involved in the control of colorectal cancer growth **ii)** identification of a new efficient strategy with a combined inhibition of polyamine metabolism (using DFMO) and eIF5A hypusination (using GC7) as a new pharmacological approach to block colorectal cancer cell growth in vivo and in vitro

6. Characterization of a novel CNBP-ODC-polyamine axis in muscle function and diseases

i) identification of the molecular axis CNBP/ODC/polyamines in the regulation of muscle function and locomotor phenotype in *Drosophila Melanogaster* animal model

International and National Collaborations:

Internationals:

- CNRS UMR 7277, Inserm 1091, Institut de Biologie Valrose (iBV), Centre de Biochimie, Université de Nice-Sophia Antipolis, Nice, France
- Department of Cellular Biology, The Scripps Research Institute, USA;
- Cancer Research Center of Lyon (CRCL), Lyon, France;
- Institut Curie, PSL Research University, France;
- Université Paris Sud, Université Paris-Saclay, France; University Paris Descartes, France;
- Shanghai Geriatric Institute of Chinese Medicine, Shanghai University of Traditional Chinese Medicine, 365 South Xiangyang Road, 200031 Shanghai, China.
- Molecular Pharmacology Branch, Developmental Therapeutics Program, Division of Cancer Treatment and Diagnosis, Frederick National Laboratory for Cancer Research, National Cancer Institute, National Institutes of Health, Frederick, Maryland 21702, United States
- Department of Molecular Biology, Cancer Cluster Salzburg, Paris-Lodron University of Salzburg, Salzburg, 5020, Austria.
