WORK EXPERIENCE

2024, March 26th – present:

First Researcher – Senior Scientist with permanent contract

Department of Infectious Diseases; Istituto Superiore di Sanità (Rome, Italy; www.iss.it)

- Immunologist and cell biologist in the field of infectious and immune-mediated diseases. Studies on innate immune correlates of pathogenicity and protection in course of viral infection or upon immunization/vaccination. Development and application of in vitro cell models for the study of vaccination and acute infections. In depth immune phenotyping of immune cell subsets in blood samples of infected individuals, vaccine recipients, frail or immunocompromised populations and pregnant women.

2018, January 1st – 2024, March 25th:

Researcher with permanent contract

Department of Infectious Diseases; Istituto Superiore di Sanità (Rome, Italy; www.iss.it)

- Immunologist and cell biologist in the field of infectious and immune-mediated diseases. Studies on innate immune correlates of pathogenicity and protection in course of viral infection or upon immunization; in depth immune phenotyping of immune cell subsets in blood samples of infected individuals, vaccine recipients, frail or immunocompromised populations and pregnant women.

2009 – 2017:

Researcher with temporary contract

Department of Infectious, Parasitic and Immune-mediated Diseases; Istituto Superiore di Sanità (Rome, Italy; www.iss.it)

- Immunologist and cell biologist in the field of infectious and immune-mediated diseases; study of phenotypical and transcriptional changes occurring in antigen presenting cells (including Dendritic Cell subsets and B cells) in infection systems and dysregulation of these responses in autoimmune and immune-mediated diseases

2008 – 2009:

Research Fellow

Department of Infectious, Parasitic and Immune-mediated Diseases; Istituto Superiore di Sanità (Rome, Italy; www.iss.it)

- Research activity focused on the study of host-pathogen interaction and on mechanisms of innate immunity; infection in BSL3 facilities

2005 – 2007:

Post-Doctoral Fellowship

Department of Medicine; University of Massachusetts Medical School (Worcester, MA – USA; <https://www.umassmed.edu/>)

- Study of immune modifications occurring in human and murine myeloid cells subsets in course of infection

2003 – 2005:

PhD student in Medical Microbiology and Immunology

Department of Infectious, Parasitic and Immune-mediated Diseases; Istituto Superiore di Sanità (Rome, Italy; www.iss.it) / Department of Medicine; University of Massachusetts Medical School (Worcester, MA – USA; <https://www.umassmed.edu/>)

- Characterization of type I Interferon and cytokine-driven innate immune responses in course of viral and bacterial infection

2002 – 2003:

Guest Scientist

Division of anti-viral and anti-tumor defense; CNRS (Montpellier, France; <https://www.occitanie-est.cnrs.fr/>)

- Acquisition of skills in the application of gene expression analysis techniques and in silico characterization of gene promoter regions

EDUCATION AND TRAINING

2007, June:

PhD in Medical Microbiology and Immunology

"Tor Vergata" University (Rome, Italy). Experimental thesis at Department of Infectious, Parasitic, and Immune-mediated Diseases (Istituto Superiore di Sanità, Rome - Italy. Tutor: Dr. Eliana M. Coccia) and at Department of Medicine (University of Massachusetts Medical School, Worcester, MA – USA. Tutor: Prof. Kate A. Fitzgerald).

- Characterization of innate responses and immune modifications occurring in human and murine myeloid cells subsets in course of infection (in vitro and in vivo infection with RNA viruses and bacterial pathogens such as Listeria monocytogenes; in vitro myeloid cell differentiation and phenotypical characterization by flow cytometry).

2003, May 30th:

Doctor in Biological Sciences with full marks (*magna cum laude*)

"La Sapienza" University (Rome, Italy). Experimental thesis at Laboratory of Immunology (Istituto Superiore di Sanità, Rome - Italy. Tutor: Dr. Eliana M. Coccia)

- Study of the regulation of type I Interferon expression in human primary Dendritic Cell subtypes infected with bacterial or viral pathogens (acquisition of skills in application of biomolecular techniques for transcriptome analyses and cellular culturing of human primary cell types).

Training Courses

1. Participation to "Intensive English Language Course" (Emerald Cultural Institute, Dublin, Ireland, 31 July- 11 August 2000).
2. Participation to "Intensive French Language Course" (Università popolare di Roma - UPTER, Rome, Italy, 9 September - 15 October 2002).
3. Participation to the Training Course "Strumentazione per lo studio del proteoma" (Università di Roma La Sapienza, Rome, Italy, 19 June 2003).
4. Participation to "Corso di formazione per i Lavoratori sulla sicurezza per il personale che opera nei laboratori a rischio chimico, fisico e biologico" (Istituto Superiore di Sanità, Rome, Italy, 1- 2 December 2003).
5. Participation to the Training Course "Fondamenti di bioinformatica" (Ospedale L. Spallanzani, 24- 29 September 2004).
6. Participation to the Training Course "Tecnologie per indagini funzionali del genoma nella ricerca clinica italiana: presente e futuro" (Istituto Superiore di Sanità, Rome, Italy, 12 May 2008).
7. Participation to the Training Course "Preparazione, amplificazione e quantificazione di acidi nucleici" (Istituto Superiore di Sanità, Rome, Italy, 8 May 2011).
8. Participation to the Training Individual Course "Tecniche di rilevazione dell'apoptosi tramite citofluorimetria su strumentazione BD FACSCanto" (BD Training Center, Buccinasco, Milan, Italy, 2-3 April 2012).
9. Participation to the Training Technical Course for Illumina Technology "Using RNA sequencing to study the transcriptome" (Università degli Studi di Roma La Sapienza, 27 June 2012).
10. Participation to the Training Technical Course for Illumina Technology "Using new technologies to study the genetics of disease" (Università degli Studi di Roma La Sapienza, 27 June 2012).
11. Participation to the Training e-learning Course "Corso di formazione generale per i Lavoratori" (Istituto Superiore di Sanità, Rome, Italy, 4 hours, 7 August 2014).
12. Participation to the Training e-learning Course "Corso di formazione sulla Sicurezza Informatica" - 37 modules (Istituto Superiore di Sanità, Rome, Italy, completed on 10 January 2021).

HONORS AND INVITATIONS

Awards and Honors

- **2017:** Winner of annual Italian Neuroimmunology Association (AINI) Price given to a society member for his work and commitment in the neuroimmunology field.
 - **2009:** "Travel Award" winner for the participation to the Tri-Society Annual Conference Meeting (Lisbon, Portugal)
 - **2008:** "EFIS-EJI Award" for best presentation of a young investigator involved in a project with an international partner (VI SIICA Congress, Rome, Italy).
 - **2007:** Price for the best poster presentation at the "International Meeting From Interferon Discovery to Clinical Application" (Paris, France).
 - **2006:** "Travel Award" winner for the participation to "Cytokine 2006 Meeting" (Vienna, Austria)
-
- **2019 - present:** Elected Member of Steering Committee of the Italian Association of Neuroimmunology (AINI)

Editorial activity

- **2021- present:** Editorial Board Member of the international peer-reviewed journal *Frontiers in Virology*
- **2021- present:** Editorial Board Member of the international peer-reviewed journal *Frontiers in Immunology*
- Ad hoc referee for international peer-reviewed journals (*J Autoimmunity*, *Scientific Reports*, *J Neuroimmunology*, *Frontiers*, *Int J Molec Sciences*, *Cells*, *Scandinavian J Rheumatology*, *Mediators of Inflammation*, *Immunotherapy*)
- Ad hoc referee for the evaluation of project proposals to Italian Multiple Sclerosis Foundation (FISM)

Invited presentations

- **2024:** Invited speaker and Faculty Member of "Masterclass on Pregnancy in MS and NMOSd" (Rome, Italy; 12-14 June)
- **2024:** Invited chairman of the "POSTER Session" of the XXXII AINI Congress (Cagliari, Italy)
- **2023:** Invited chairman of the "POSTER Session" of the XXXI AINI Congress (Palermo, Italy)
- **2022:** Invited chairman of the "Immunometabolism" Session of the XXX AINI Congress (Riccione, Italy)
- **2021:** Invited chairman of the "Neuroimmunology of cognition and behavioral disorders" Session of the XXIX AINI Congress (Verona, Italy)
- **2019:** Invited chairman of the "Neuroimmunology in mood and sleep disorders II: Immunology, inflammation and clinical practice in psychiatry" Session of the XXVIII AINI Congress (Camogli, Italy)
- **2017:** Presentation as invited speaker to the "5th International Symposium in health and Disease" (Washington DC, USA)

PERSONAL SKILLS

Mother Tongue(s)

Italian

Other language(s)

Fluent English and Fluent French

Job-related skills

Managing skills:

- Experience in writing of national and international grant projects
- Experience in writing of scientific manuscripts
- Experience in coordination and management of projects and team work

Technical laboratory skills:

- Experimental procedures in biosafety level 2 and 3 facilities
- Isolation and culture of human and murine primary cells isolated from blood and tissues
- Growth and maintenance of cell lines
- Multiparametric analysis by flow cytometry of blood- or tissue-derived immune cell subtypes
- Single cell proteome/transcriptome analysis
- Transfection of primary cells and cell lines
- Determination of cytokines and chemokines by immunoassay techniques (ELISA, multiplex bead-based assays)
- Purification of Nucleic Acids (RNA and DNA)
- Nucleic Acid Amplification by PCR
- Quantification of gene expression by Real Time RT-PCR and Digital PCR
- Nuclear, cytoplasmic and total protein extraction
- Purification and concentration of secreted protein
- Western Blotting
- DNA Cloning

Digital skills

- Proficient in Windows and Macintosh operating systems;
- Proficient in Microsoft Office Excel, PowerPoint, Word and Outlook;
- Proficient in softwares for statistical analyses of data and graphics (such as GraphPad Prism);
- Proficient in softwares for analysis of multiparametric cytofluorimetric data, including FlowJo, Kaluza, CytExpert;
- Proficient in *in silico* analysis of promoter and gene sequences by using public Databases and specific softwares such as MatInspector.

Other skills and Teaching

- Tutor for bachelor degree thesis: "Immunometabolismo: come il metabolismo cellulare influenza il sistema immunitario e le malattie autoimmuni. Focus sulla Sclerosi Multipla" A.A. 2019/2020 (Student of Università degli Studi di "Roma Tre"). Status: completed.
- Tutor for master degree thesis: "Studio della regolazione dell'espressione genica e dei fattori sierici associati alla risposta innata in soggetti sani vaccinati con il vaccino anti-COVID-19 BNT162b2 e loro correlazione con la risposta anticorpale protettiva" A.A. 2021/2022 (Student of Università degli Studi di "Roma Tre"). Status: completed.
- Tutor for PhD thesis: "In search of an early innate signature predictive of later protective antibody response to Influenza and COVID-19 vaccination in healthy and frail subjects" Starting A.A. 2024/2025 (Student of Dottorato Nazionale in "Innovazione nella diagnosi, prevenzione e terapia delle infezioni a rischio epidemico-pandemico" - XXXX ciclo - Università degli Studi di SIENA). Status: ongoing.
- Local organizing committee member for organization of the XXX Congress of Italian Association of Neuroimmunology (AINI) (May 2022, Riccione – Italy)
- Member of "Commissione esaminatrice della selezione pubblica per titoli e prova-colloquio, per assunzione con contratto a tempo determinato con profilo Ricercatore" (Prot. AOO-ISS 10/5/2018 0014425).
- Member of "Commissione esaminatrice per pubblico concorso, per titoli e colloquio, per il conferimento di una borsa di studio per laureati - G.U. n. 59 del 4.8.2023 (BS NEURO 2023 01)
- Member of National and International Scientific Societies (Italian Association of Neuroimmunology - AINI; Italian Society of Immunology, Clinical Immunology and Allergology - SIICA; International Cytokine & Interferon Society – ISICR)
- **A.A. 2017/2018:** Teaching assistant (as "cultore della materia") of "Immunology Course" (Faculty of Biological Sciences, "RomaTre" University, Rome, Italy) (12 hours)
- **A.A. 2018/2019:** Teaching assistant (as "cultore della materia") of "Immunology Course" (Faculty of Biological Sciences, "RomaTre" University, Rome, Italy) (12 hours)
- **A.A. 2020/2021:** Teaching assistant (as "cultore della materia") of "Immunology Course" (Faculty of Biological Sciences, "RomaTre" University, Rome, Italy) (12 hours)
- **A.A. 2020/2021:** Teaching assistant (as "cultore della materia") of "Immunology Course" (Faculty of Biological Sciences, "RomaTre" University, Rome, Italy) (12 hours)
- **A.A. 2021/2022:** Teaching assistant (as "cultore della materia") of "Immunology Course" (Faculty of Biological Sciences, "RomaTre" University, Rome, Italy) (12 hours)
- **A.A. 2022/2023:** Teaching assistant (as "cultore della materia") of "Anti-microbial Immunity and Immuno diagnostics" Course (Faculty of Biological Sciences, "RomaTre" University, Rome, Italy) (3 hours)
- **A.A. 2023/2024:** Teaching assistant (as "cultore della materia") of "Anti-microbial Immunity and Immuno diagnostics" Course (Faculty of Biological Sciences, "RomaTre" University, Rome, Italy) (3 hours)

RESEARCH ACTIVITIES

Statement of Research Interests

Long-term objective of the research activity is to understand immune-regulatory mechanisms linked to host-pathogen interaction and regulation of innate and adaptive immune responses as well as cytokine/chemokine-mediated pathways during infection, upon vaccination or in course of autoimmune diseases in human antigen presenting cells, such as DC, monocytes-macrophages and B cells, in different populations including frail and immunosuppressed people as well as in pregnancy, with the final intent to develop innovative personalized and tailored immunological or pharmacological approaches. To understand also if the dysregulation of these responses plays a role in the pathogenesis of autoimmune diseases, including Multiple Sclerosis (MS), with a particular focus on the study of activation/exhaustion and immunometabolic pathways of B cell subsets in people with MS and in pregnant MS women. She gained strong scientific and technical background in the field of immunology, infectious and immune-mediated diseases by conducting several studies on phenotypical and transcriptional changes occurring in immune cell subsets derived from and *in vitro* cell models based on human primary immune cells in the context of viral or bacterial infection and/or by investigating alterations in immune cell subsets studied *ex vivo* in people with autoimmune disorders.

Recently, the specific know-how obtained with these studies was also applied to identify new correlates of pathogenicity and vaccine-induced protection during the current pandemic by characterizing SARS-CoV-2-infected or immunized individuals, with particular regard to frail populations including aging individuals or people with MS in treatment with immunomodulatory or biological drugs.

Funded Grants

Funded Grants as Principal Investigator:

- 2014-FISM (Italian Multiple Sclerosis Foundation) Grant (2014/R/19): "An Interferon- β -conjugated Antibody targeted to B cells: a novel immunocytokine for the treatment of Multiple Sclerosis." (expired 2017, November 30th) (amount awarded: €29.977,50).
- 2016-Giovani Ricercatori (Ricerca Finalizzata-Ministero della Salute- grant N. GR-2016-02363749): "Unveiling the impact of B cell-associated metabolic signatures in Multiple Sclerosis: integrating clinical parameters and metabolic targets to predict disease course." (ongoing: 2018, November 5th –end of 2023) (amount awarded: €448.700).

Funded Grants as Team Member/Collaborator:

- 2024-2026 RIPrEI project, L106/2021 ("Rete Italiana per la sorveglianza virologica, il monitoraggio immunologico, la formazione e la ricerca in Preparazione alla gestione delle Emergenze Infettive - R.I.Pr.E.I." Call 2023): "Gaining insight into COVID-19 neuropathogenesis: a closer look to SARS-CoV-2 infection and driven neuroinflammation in the neuron/microglia axis"
- 2023-2025 Istituto Superiore di Sanità Grant 5X1000: "A biomimetic in vitro model for the immunogenicity assessment of vaccines for human use: exploitation of Peripheral Blood Mononuclear Cell/Muscle Cell cross-talk and innate immune signature for the evaluation of aluminum adjuvanted- and mRNA-based formulations (ISS5x1000_2023-50be217a6e8a).
- 2023-2025 EU funding within the MUR PNRR Extended Partnership initiative on Emerging Infectious Diseases (Project no. PE00000007) "One Health Basic and Translational Research Actions addressing Unmet Needs on Emerging Infectious Diseases (INF-ACT)"
- 2023-2026 PRIN-Bando 2022 "Systems vaccinology and innovative immunological approaches to investigate the impact of biological sex on COVID-19 mRNA vaccine immunogenicity, reactogenicity, and safety." (Codice: 2022F37JRF)
- 2023-2028 (HORIZON-HLTH-2022-DISEASE-06-two-stage Call): "Innovative nasal vaccines to prevent pathogen colonization and infection in the upper respiratory tract (NOSEVAC)"
- 2017-2022 (IMI 2 – 8th Call): "Pan Ebola Vaccine Innovative Approach (PEVIA)" (Amount awarded to OU: €246.888).
- 2017-2019 (Neuromed Collaborative Agreement - Biogen Sponsored Grant): "Apparent gain of efficacy of PLEGIRDY over previous interferon-beta formulations in multiple sclerosis: any effects on disease aetiology?". (Amount awarded to OU: €35.820).
- 2016-2021 (IMI 2 – 3rd Call): "Vaccine batch to vaccine batch comparison by consistency testing (Vac2Vac)". (Amount awarded to OU: €284.655).
- 2015–2017 (Progetto FILAS-Regione Lazio): "Development and testing of biotechnological platforms for the high throughput screening of drug molecules against emerging and re-emerging infectious diseases". (Amount awarded to OU: €70.000)..
- 2014-2016 FISM (Italian Multiple Sclerosis Foundation) Grant: "Analysis of INTERFEROME in MS: searching for dysregulated pathways". Multicenter project (Amount awarded to ISS Unit: €137.000)
- 2014-2015 (Convenzione Novartis): "Host-pathogen interactions, mechanisms of attenuation and immunogenicity of Staphylococcus aureus recombinant strains in human dendritic cells".
- 2014-2015 (Finanziamento ISS): "Timosina-alpha1, TLR e cellule presentanti l'antigene (APC): un "Ménage à trois" di cui avvalersi per la messa a punto di nuovi adiuvanti ed agenti immunoterapeutici".
- 2012-2013 (FP-7 Health project): "NewTBvac" European Project.

Indexed Publications

Total number of publications in peer-review journals: 56

Average Impact Factor of all publications: 6

Total number of citations: 3257

H index (Scopus): 27 (without self-citations)

ORCID ID: 0000000204114545

1. Viral infection and Toll-like receptor agonists induce a differential expression of type I and lambda Interferon in human plasmacytoid and monocyte-derived Dendritic Cells. Coccia EM, Severa M, Giacomini E, Monneron D, Remoli ME, Julkunen I, Cella M, Lande R. and Uzé G. Eur. J. Immunol. 2004 Mar, 34(3):796-805.
2. Inhibition of interleukin-12 expression in diltiazem-treated dendritic cells through the reduction of nuclear factor-kappa B transcriptional activity. Severa M, D'Ambrosio A, Giordani L, Quintieri F, Coccia E. Biochem Pharmacol. 2005 Feb 1;69(3):425-32.
3. Human dendritic cells following Aspergillus fumigatus infection express the CCR7 receptor and a differential pattern of interleukin-12 (IL-12), IL-23, and IL-27 cytokines, which lead to a Th1 response. Gafa V, Lande R, Gagliardi MC, Severa M, Giacomini E, Remoli ME, Nisini R, Ramoni C, Di Francesco P, Aldebert D, Grillot R, Coccia EM. Infect Immun. 2006 Mar;74(3):1480-9.
4. Tumor necrosis factor alpha enhances influenza A virus-induced expression of antiviral cytokines by activating RIG-I gene expression. Matikainen S, Sirén J, Tissari J, Veckman V, Pirhonen J, Severa M, Sun Q, Lin R, Meri S, Uzé G, Hiscott J, Julkunen I. J Virol. 2006 Apr;80(7):3515-22.
5. Differential responsiveness to IFN-alpha and IFN-beta of human mature DC through modulation of IFNAR expression. Severa M, Remoli ME, Giacomini E, Ragimbeau J, Lande R, Uzé G, Pellegrini S, Coccia EM. J Leukoc Biol. 2006 Jun;79(6):1286-94.
6. Infection of human dendritic cells with a Mycobacterium tuberculosis sigE mutant stimulates production of high

- levels of interleukin-10 but low levels of CXCL10: impact on the T-cell response. Giacomini E, Sotolongo A, Iona E, Severa M, Remoli ME, Gafa V, Lande R, Fattorini L, Smith I, Manganelli R, Coccia EM. *Infect Immun.* 2006 Jun;74(6):3296-304.
7. Pinning down immune responses to RNA viruses. Goutagny N, Severa M, Fitzgerald KA. *Nat Immunol.* 2006 Jun;7(6):555-7.
 8. Toll-like receptor-dependent and -independent viperin gene expression and counter-regulation by PRDI-binding factor-1/BLIMP1. Severa M, Coccia EM, Fitzgerald KA. *J Biol Chem.* 2006 Sep 8;281(36):26188-95.
 9. NF- κ B is required for STAT-4 expression during dendritic cell maturation. Remoli ME, Ragimbeau J, Giacomini E, Gafa V, Severa M, Lande R, Pellegrini S, Coccia EM. *J Leukoc Biol.* 2007 Jan;81(1):355-63.
 10. In vitro infection of human dendritic cells by *Aspergillus fumigatus* conidia triggers the secretion of chemokines for neutrophil and Th1 lymphocyte recruitment. Gafa V, Remoli ME, Giacomini E, Gagliardi MC, Lande R, Severa M, Grillot R, Coccia EM. *Microbes Infect.* 2007 Jul;9(8):971-80.
 11. TLR-mediated activation of type I IFN during antiviral immune responses: fighting the battle to win the war. Severa M, Fitzgerald KA. *Curr Top Microbiol Immunol.* 2007;316:167-92. Review.
 12. IFN-beta modulates the response to TLR stimulation in human DC: involvement of IFN regulatory factor-1 (IRF-1) in IL-27 gene expression. Remoli ME, Gafa V, Giacomini E, Severa M, Lande R, Coccia EM. *Eur J Immunol.* 2007 Dec;37(12).
 13. Plasmacytoid dendritic cells in multiple sclerosis: intracerebral recruitment and impaired maturation in response to interferon-beta. Lande R, Gafa V, Serafini B, Giacomini E, Visconti A, Remoli ME, Severa M, Parmentier M, Ristori G, Salvetti M, Aloisi F, Coccia EM. *J Neuropathol Exp Neurol.* 2008 May;67(5):388-401.
 14. Superior immunogenicity of inactivated whole virus H5N1 influenza vaccine is primarily controlled by Toll-like receptor signalling. Geeraerts F, Goutagny N, Hornung V, Severa M, de Haan A, Pool J, Wilschut J, Fitzgerald KA, Huckriede A. *PLoS Pathog.* 2008 Aug 29;4(8).
 15. Enhancement of anti-*Aspergillus* T helper type 1 response by interferon- β -conditioned dendritic cells. Gafa V, Remoli ME, Giacomini E, Severa M, Grillot R, Coccia EM. *Immunology.* 2010 Oct;131(2):282-8.
 16. Epstein-Barr virus latent infection and BAFF expression in B cells in the multiple sclerosis brain: implications for viral persistence and intrathecal B-cell activation. Serafini B, Severa M, Columba-Cabezas S, Rosicarelli B, Veroni C, Chiappetta G, Magliozi R, Reynolds R, Coccia EM, Aloisi F. *J Neuropathol Exp Neurol.* 2010 Jul;69(7):677-93.
 17. Herpes simplex virus immediate-early ICPO protein inhibits Toll-like receptor 2-dependent inflammatory responses and NF- κ B signaling. van Lint AL, Murawski MR, Goodbody RE, Severa M, Fitzgerald KA, Finberg RW, Knipe DM, Kurt-Jones EA. *J Virol.* 2010 Oct;84(20):10802-11.
 18. Bystander inhibition of dendritic cell differentiation by *Mycobacterium tuberculosis*-induced IL-10. Remoli ME, Giacomini E, Petruccioli E, Gafa V, Severa M, Gagliardi MC, Iona E, Pine R, Nisini R, Coccia EM. *Immunol Cell Biol.* 2011 Mar;89(3):437-46.
 19. Type I interferon and Toll-like receptor expression characterizes inflammatory myopathies. Cappelletti C, Baggi F, Zolezzi F, Biancolini D, Beretta O, Severa M, Coccia E, Confalonieri P, Moranti L, Mora M, Mantegazza R, and Bernasconi P. *Neurology.* 2011 Jun 14;76(24):2079-88.
 20. Differential regulation of miR-21 and miR-146a by Epstein-Barr virus encoded EBNA2. Rosato P, Anastasiadou E, Boccellato F, Vincenti S, Severa M, Coccia E, Frati L, Presutti C, Faggioni A, Trivedi P. *Leukemia.* 2012 Nov; 26(11):2343-52.
 21. EBV stimulates TLR- and autophagy-dependent pathways and impairs maturation in plasmacytoid dendritic cells: implications for viral immune escape. Severa M*, Giacomini E, Gafa V, Anastasiadou E, Rizzo F, Corazzari M, Romagnoli A, Trivedi P, Fimia GM, Coccia EM.* *Eur J Immunol.* 2013 Jan;43(1):147-58. [*sharing corresponding author]
 22. Epstein-Barr virus persistence and infection of autoreactive plasma cells in synovial lymphoid structures in rheumatoid arthritis. Croia C, Serafini B, Bombardieri M, Kelly S, Humby F, Severa M, Rizzo F, Coccia EM, Migliorini P, Aloisi F, Pitzalis C. *Ann Rheum Dis.* 2013 Sep 1;72(9):1559-68.
 23. Increased CD8+ T cell response to Epstein-Barr virus lytic antigens in the active phase of multiple sclerosis. Angelini DF, Serafini B, Piras E, Severa M, Coccia EM, Rosicarelli B, Ruggieri S, Gasperini C, Buttari F, Centone D, Mechelli R, Salvetti M, Borsellino G, Aloisi F, Battistini L. *PLoS Pathog.* 2013;9(4):e1003220.
 24. IFN- β therapy modulates B-cell and monocyte crosstalk via TLR7 in multiple sclerosis patients. Giacomini E*, Severa M*, Rizzo F, Mechelli R, Annibali V, Ristori G, Riccieri V, Salvetti M, Coccia EM. *Eur J Immunol.* 2013 Jul;43(7):1963-72. 2013 May 28. [*sharing first author]
 25. The Transcriptional Repressor BLIMP1 Curbs Host Defenses by Suppressing Expression of the Chemokine CCL8. Severa M, Islam SA, Waggoner SN, Jiang Z, Kim ND, Ryan G, Kurt-Jones E, Charo I, Caffrey DR, Boyartchuk VL, Luster AD, Fitzgerald KA. *J Immunol.* 2014 Mar 1;192(5):2291-304.
 26. A human dendritic cell-based *in vitro* model to assess *Mycobacterium tuberculosis* SO2 vaccine immunogenicity. Etna MP, Giacomini E, Severa M, Pardini M, Aguiló N, Martin C, Coccia EM. *ALTEX.* 2014 May 20.
 27. Pro- and anti-inflammatory cytokines in tuberculosis: a two-edged sword in TB pathogenesis. Etna MP, Giacomini E, Severa M, Coccia EM. *Semin Immunol.* 2014 Dec;26(6):543-51.
 28. IFN- β and multiple sclerosis: Cross-talking of immune cells and integration of immunoregulatory networks. Severa M, Rizzo F, Giacomini E, Salvetti M, Coccia EM. *Cytokine Growth Factor Rev.* 2015 Apr;26(2):229-39.
 29. IFN- β Therapy Regulates TLR7-Mediated Response in Plasmacytoid Dendritic Cells of Multiple Sclerosis Patients Influencing an Anti-Inflammatory Status. Severa M*, Rizzo F, Giacomini E, Annibali V, Gafa V, Romano S, Buscarini MC, Fornasiero A, Salvetti M, Coccia EM.* *J Interferon Cytokine Res.* 2015 Apr 29. [*sharing corresponding author]
 30. Dual effect of Thymosin α 1 on human monocyte-derived dendritic cell *in vitro* stimulated with viral and bacterial toll-like receptor agonists. Giacomini E*, Severa M*, Cruciani M, Etna MP, Rizzo F, Pardini M, Scagnolari C, Garaci E, Coccia EM. *Expert Opin Biol Ther.* 2015 Jun 22;1-12. [*sharing first author]
 31. Apoptotic Epitope-Specific CD8+ T Cells and Interferon Signaling Intersect in Chronic Hepatitis C Virus Infection. Martini H, Citro A, Martire C, D'Ettorre G, Labbadia G, Accapezzato D, Piconese S, De Marzio P,

- Cavallari EN, Calvo L, Rizzo F, Severa M, Coccia EM, Grazi GL, Di Filippo S, Sidney J, Vullo V, Sette A, Barnaba V. *J Infect Dis.* 2016 Feb 15;213(4):674-83. 2015 Sep 19.
32. Impact of Mycobacterium tuberculosis RD1-locus on human primary dendritic cell immune functions. Etna MP, Giacomini E, Pardini M, Severa M, Bottai D, Cruciani M, Rizzo F, Calogero R, Brosch R, Coccia EM. *Sci Rep.* 2015 Nov 25;5:17078.
33. IFN- α promotes rapid human Treg contraction and late Th1-like Treg decrease. Pacella I, Timperi E, Accapezzato D, Martire C, Labbadia G, Cavallari EN, D'Ettorre G, Calvo L, Rizzo F, Severa M, Coccia EM, Vullo V, Barnaba V, Piconese S. *J Leukoc Biol.* 2016 Feb 26. pii: jlb.5A0415-140R.
34. Interferon- β therapy specifically reduces pathogenic memory B cells in multiple sclerosis patients by inducing a FAS-mediated apoptosis. Rizzo F, Giacomini E, Mechelli R, Buscarinu MC, Salvetti M, Severa M*, Coccia EM.* *Immunol Cell Biol.* 2016 Oct; 94(9):886-894. [*joint senior investigator]
35. Thymosin- α 1 expands deficient IL-10-producing regulatory B cell subsets in relapsing-remitting multiple sclerosis patients. Giacomini E, Rizzo F, Etna MP, Cruciani M, Mechelli R, Buscarinu MC, Pica F, D'Agostini C, Salvetti M, Coccia EM*, Severa M*. *Mult Scler.* 2018 Feb;24(2):127-139. [*sharing corresponding author]
36. Staphylococcus aureus Esx factors control human dendritic cell functions conditioning Th1/Th17 response. Cruciani M, Etna MP, Camilli R, Giacomini E, Percario Z, Severa M, Sandini S, Rizzo F, Brandi V, Politicelli F, Affabris E, Pantosti A, Bagnoli F and Coccia EM. *Front Cell Infect Microbiol.* 2017 Jul 21;7:330.
37. Transcriptional dysregulation of Interferome in experimental and human Multiple Sclerosis. Srinivasan S, Severa M, Rizzo F, Menon R, Brini E, Mechelli R, Martinelli V, Hertzog P, Salvetti M, Furlan R, Martino G, Comi G, Coccia EM, Farina C. *Sci Rep.* 2017 Aug 21;7(1):8981.
38. Mycobacterium tuberculosis-induced miR-155 subverts autophagy by targeting ATG3 in human dendritic cells. Etna MP, Sinigaglia A, Grassi A, Giacomini E, Romagnoli A, Pardini M, Severa M, Cruciani M, Rizzo F, Anastasiadou E, Di Camillo B, Barzon L, Fimia GM, Manganelli R, Coccia EM. *PLoS Pathog.* 2018 Jan 4;14(1):e1006790.
39. Fatty acid metabolism complements glycolysis in the selective regulatory T cell expansion during tumor growth. Pacella I, Procaccini C, Focaccetti C, Miacci S, Timperi E, Faicchia D, Severa M, Rizzo F, Coccia EM, Bonacina F, Mitro N, Norata GD, Rossetti G, Ranzani V, Pagani M, Giorda E, Wei Y, Matarese G, Barnaba V, Piconese S. *Proc Natl Acad Sci U S A.* 2018 Jul 10;115(28):E6546-E6555.
40. Epstein-Barr virus-encoded EBNA2 alters immune checkpoint PD-L1 expression by downregulating miR-34a in B-cell lymphomas. Anastasiadou E, Stroopinsky D, Alimperti S, Jiao AL, Pyzer AR, Cippitelli C, Pepe G, Severa M, Rosenblatt J, Etna MP, Rieger S, Kempkes B, Coccia EM, Sui SJH, Chen CS, Uccini S, Avigan D, Faggioni A, Trivedi P, Slack FJ. *Leukemia.* 2019 Jan;33(1):132-147.
41. Analysis of coding and non-coding transcriptome of peripheral B cells reveals an altered interferon response factor (IRF)-1 pathway in multiple sclerosis patients. Annibali V, Umeton R, Palermo A, Severa M, Etna MP, Giglio S, Romano S, Ferraldeschi M, Buscarinu MC, Vecchione A, Annese A, Pollicano C, Mechelli R, Pizzolato Umeton R, Fornasiero A, Angelini DF, Guerrera G, Battistini L, Coccia EM, Salvetti M, Ristori G. *J Neuroimmunol.* 2018 Nov 15;324:165-171.
42. Thymosins in multiple sclerosis and its experimental models: moving from basic to clinical application. Severa M, Zhang J, Giacomini E, Rizzo F, Etna MP, Cruciani M, Garaci E, Chopp M, Coccia EM. *Mult Scler Relat Disord.* 2019 Jan;27:52-60.
43. A cell type-specific transcriptomic approach to map B cell and monocyte type I interferon-linked pathogenic signatures in Multiple Sclerosis. Severa M, Rizzo F, Srinivasan S, Di Dario M, Giacomini E, Buscarinu MC, Cruciani M, Etna MP, Sandini S, Mechelli R, Farina A, Trivedi P, Hertzog PJ, Salvetti M, Farina C, Coccia EM. *J Autoimmun.* 2019 Jul;101:1-16.
44. Differential Responses of Human Dendritic Cells to Live or Inactivated Staphylococcus aureus: Impact on Cytokine Production and T Helper Expansion. Cruciani M, Sandini S, Etna MP, Giacomini E, Camilli R, Severa M, Rizzo F, Bagnoli F, Hiscott J, Coccia EM. *Front Immunol.* 2019 Nov 12;10:2622.
45. Optimization of the monocyte activation test for evaluating pyrogenicity of tick-borne encephalitis virus vaccine. Etna MP, Giacomini E, Rizzo F, Severa M, Ricci D, Shaid S, Lambrigts D, Valentini S, Galli Stampino L, Alleri L, Gaggioli A, Von Hunolstein C, Spreitzer I, Coccia EM. *ALTEX.* 2020;37(4):532-544.
46. Three Decades of Interferon- β in Multiple Sclerosis: Can We Repurpose This Information for the Management of SARS-CoV2 Infection?. Severa M, Farina C, Salvetti M, Coccia EM. *Front Immunol.* 2020 Jun 18;11:1459.
47. ISG15 protects human Tregs from interferon alpha-induced contraction in a cell-intrinsic fashion.
48. Pacella I, Spinelli FR, Severa M, Timperi E, Tucci G, Zagaglioni M, Ceccarelli F, Rizzo F, Coccia EM, Patel RS, Martin-Fernandez M, Bogunovic D, Conti F, Barnaba V, Piconese S. *Clin Transl Immunology.* 2020 Dec 23;9(12):e1221.
49. Human plasmacytoid dendritic cells at the crossroad of type I interferon-regulated B cell differentiation and antiviral response to tick-borne encephalitis virus. Etna MP, Signorazzi A; Ricci D; Severa M; Rizzo F; Giacomini E; Bekeredjian-Ding I; Huckriede A; Eliana M Coccia EM. *Plos Pathogens,* accettato per la pubblicazione in data 23 Marzo 2021.
50. Genome-wide gene expression analysis of Mtb-infected DC highlights the rapamycin-driven modulation of regulatory cytokines via the mTOR/GSK-3b axis. Etna MP, Severa M, Licursi V, Pardini M, Cruciani M, Rizzo F, Giacomini E, Macchia G, Palumbo O, Stallone R, Carella M, Livingstone M, Negri R, Pellegrini S, Coccia EM. *Front Immunol.* 2021 Apr 16;12:649475.
51. Innate Immune Response to SARS-CoV-2 Infection: From Cells to Soluble Mediators. Ricci D, Etna MP, Rizzo F, Sandini S, Severa M, Coccia EM. *Int J Mol Sci.* 2021 Jun 29;22(13):7017.
52. Differential plasmacytoid dendritic cell phenotype and type I Interferon response in asymptomatic and severe COVID-19 infection. Severa M, Diotti RA, Etna MP, Rizzo F, Fiore S, Ricci D, Iannetta M, Sinigaglia A, Lodi A, Mancini N, Criscuolo E, Clementi M, Andreoni M, Balducci S, Barzon L, Stefanelli P, Clementi N, Coccia EM. *PLoS Pathog.* 2021 Sep 2;17(9): e1009878.
53. Novel evidence of Thymosin α 1 immunomodulatory properties in SARS-CoV-2 infection: Effect on innate inflammatory response in a peripheral blood mononuclear cell-based in vitro model. Ricci D, Etna MP,

- Severa M, Fiore S, Rizzo F, Iannetta M, Andreoni M, Balducci S, Stefanelli P, Palamara AT, Coccia EM. Int Immunopharmacol. 2023 Apr;117:109996.
- 54.** A specific anti-COVID-19 BNT162b2 vaccine-induced early innate immune signature positively correlates with the humoral protective response in healthy and multiple sclerosis vaccine recipients. Severa M, Rizzo F, Sinigaglia A, Ricci D, Etna MP, Cola G, Landi D, Buscarini MC, Valdarchi C, Ristori G, Riccetti S, Piubelli C, Palmerini P, Rosato A, Gobbi F, Balducci S, Marfia GA, Salvetti M, Barzon L, Coccia EM. Clin Transl Immunology. 2023 Mar 23;12(3):e1434.
- 55.** Functional diversification of innate and inflammatory immune responses mediated by antibody Fc activities against SARS-CoV-2. Severa M., Etna M.P., Andreano E., Ricci D., Cairo G., Fiore S., Canitano A., Cara A., Stefanelli P., Rappuoli R., Palamara A.T., Coccia E.M.. iScience. 2024 Apr 11;27(5):109703.
- 56.** A Serum Multi-Parametric Analysis Identifies an Early Innate Immune Signature Associated to Increased Vaccine-Specific Antibody Production and Seroconversion in Simultaneous COVID-19 mRNA and Cell-Based Quadrivalent Influenza Vaccination. Severa M., Ricci D., Etna M.P., Facchini M., Puzelli S., Fedele G., Iorio E., Cairo G., Castrechini S., Ungari V., Iannetta M., Leone P., Chirico M., Pisani M.E., Bottazzi B., Benedetti L., Sali M., Bartolomucci R., Balducci S., Garlanda C., Stefanelli P., Spadea A., Palamara A.T. and Coccia E.M.. Vaccines 2024, 12(9), 1050.
