Economics and Finance PhD student.
Masters in Actuarial and Financial Sciences.
Bachelors in Statistics for Management.

PERSONAL STATEMENT

Statistics is a science infused in every field. Its diverse applications make it uniquely attractive and are the roots of my curiosity.

I have always enjoyed math and computer and I decided to specialize in actuarial and financial sciences.

The challenges faced during my education also gave me an invaluable work ethic: the effort to overcome obstacles and the rewards of self-improvement afford me the expertise and enthusiasm to face the next challenge.

I also enjoy travel and interacting with various cultures.
