Staff Team

Project "**Better knowledge for next generations (BETKONEXT)**" of the Luiss - Libera Università Internazionale degli Studi Sociali Guido Carli in collaborative partnership with the Italian AFCOS at the Presidency of Council of Ministers - Department for European Affairs and Universities and Anti-fraud Services of **Belgium, Poland and Spain**), co-financing by **European Commission/OLAF**, under the "**Union Anti-Fraud Programme (UAFP)**".

The 'BETKONEXT' project aims to deepen these crucial thematic clusters, under the umbrella of the word 'cooperation' for the protection of EU finances, with the involvement of selected European and national institutions working in this field (e.g. AFCOS, OLAF, EPPO, Eurojust, Europol, Universities). It will do so through the state-of-the-art presented in an earlier Hercule III project, 'Better Knowledge for Better Solutions (BETKOSOL)'.

In the different stages of the work, BETKONEXT intends to investigate the potential of institutional cooperation through the study of different legal frameworks and concrete practices of cooperation in the field of anti-fraud, and the results of the comparative law study will be tested in operational scenarios and will serve for both 'law in the book' and 'law in action'.
