Current

- Title: Measuring Health, Function, and Social Wellbeing in Adults on the Autism Spectrum; Source: National Institute of Mental Health (R01MH121407); Principal Investigator: Christina Nicolaidis, MD, MPH; Role: PI; Amount: \$3,171,649; % Effort: 30%; Timeframe: 2/2020-11/2024.

The objective of this proposal is to use a CBPR approach to create and test a package of patient-reported outcome measures that can be used to evaluate the effectiveness of services interventions for autistic adults across multiple real-world settings.

- Title: Measuring Health, Function, and Social Well-being in Adults on the Autism Spectrum: Sexual and Gender Minorities (SGM) Supplement. Source: National Institute of Mental Health (3 R01MH121407); Principal Investigator: Christina Nicolaidis, MD, MPH. Role: PI. Amount: \$99,997. 9/2021-8/2022.

The objective of this administrative supplement is to create survey instruments to measure SGM-related outcomes, to identify potential disparities, and explore factors that may improve health and social outcomes for LGBTQIA+ autistic adults.

- Title: Understanding and Supporting Pregnancy Decision-Making among Women with Developmental Disabilities that Affect Cognition; Source: National Institute of Child Health and Development (R01HD105655); Principal Investigator: Willi Horner Johnson, PhD, OHSU; Role: Co-investigator / site PI; Amount: \$3,285,186 (\$675,155 subcontract to PSU); 9/2021-8/2026; % Effort: 15%.

The objectives of this project are to assess the needs and determinants of pregnancy planning decisions among women with developmental disabilities that affect cognition (DD-C) and develop an accessible pregnancy decision support tool.

- Title: Establishing Intervention Priorities for Nonverbal Communication in Autistic Adults; Source: National Institute of Child Health and Development (R21DC020547); Principal Investigator: Ashley de Marchena, PhD; Role: Co-Investigator. Amount: \$70,332 (PSU subaward only); % Effort: 1%; Timeframe: 9/15/2022-7/31/2025.

The objective of this project is to understand autistic adults' non-verbal communication experiences and their perspectives on potential intervention.

- Title: Validation of a novel measurement battery of relationship and safety skills for adults with and without autism spectrum disorder; Source: National Institute of Mental Health (R34 MH127065); Principal Investigator: Susan Faja, PhD; Role: Consultant; Timeframe: 09/2022-08/2025.

The objective of this project is to create and test a variety of measurement instruments to assess dating and sexual relationship skills in autistic adults.

- Title: Mental Health in Autistic Adults: An RDoC Approach (Project 1: Suicidality in Autistic Adults: Self-Report Development and Trajectories); Source: National Institute of Mental Health (P50 MH130957); Principal Investigator: Carla Mazefsky, PhD; Role: Consultant; Timeframe: 09/2022-06/2027.

The objective of this project is to develop a suicidality measure for autistic adults, the Autism Suicidality Inventory, that will capture a continuum of suicide risk.

Completed

- Title: Health System Integration of Tools to Improve Primary Care for Autistic Adults; Source: National Institute of Mental Health (1R34MH111536-01); Principal Investigator: Christina Nicolaidis, MD, MPH; Role: PI; Amount: \$690,072; % Effort: 30%; Timeframe: 01/2017-12/2019.

The project used a CBPR approach to integrate the Academic Autism Spectrum Partnership in Research and Education (AASPIRE) Healthcare Toolkit into three healthcare system and evaluate its effect on improving primary healthcare outcomes for autistic adults.

- Title: Autism and Skilled Employment: An Exploratory Study to Inform Future Intervention; Source: National Institute of Mental Health (1R21MH112038-01); Principal Investigator: Dora Raymaker, PhD; Role: Co-Investigator; Amount: \$417,285; % Effort: 5%; Timeframe: 12/2016-11/2019.

This study used a CBPR approach and qualitative methods to better understand autistic people's experiences with skilled employment.

- Title: Literature Review and Framework for Estimating the Costs of Intimate Partner violence (IPV) in the United States; Source: Centers for Disease Control (Contract # 200-2015-F-88070 to Quality Resource Systems, Inc.), Co-Principal Investigators: Christina Nicolaidis, MD, MPH & Kathryn McCollister, PhD (equally share role of PI); Role: Co-PI; Amount: \$338,738; % Effort: 12%; Timeframe: 09/2015-09/2017.

The purpose of this contract was to conduct a systematic review and estimate the costs attributable to intimate partner violence in the United States. Dr. Nicolaidis led the review related to outcomes attributable to IPV and Dr. McCollister led the review of costs.

- Title: Pregnancy Decision-Making and Supports for Women with Developmental Disabilities; Source: National Institute of Child Health and Development (R21HD078830); Principal Investigator: Mary Oschwald, PhD.; Role: Co-Investigator; Amount: \$415,800; % Effort: 10%; Timeframe: 08/2014-07/2017.

The goal of this proposed study was to use a participatory research approach to conduct qualitative interviews with women with development disabilities (WWDD) to better understand how they conceptualize and experience pregnancy, with the long-term goal of creative effective interventions that help WWDD make informed decisions about becoming pregnant or maintaining a pregnancy, foster health perinatal choices and behaviors, and strengthen existing support systems.

- Title: Partnering with Autistic Adults to Develop Tools to Improve Primary Healthcare; Source: National Institute of Mental Health (1R34MH092503-01); Principal Investigator: Christina Nicolaidis, MD, MPH; Role: PI; Amount: \$630,429; % Effort: 30%; Timeframe: 06/2011-04/2015.

This project used a community-based participatory research approach to develop and test patient-centered care tools to improve the primary healthcare of autistic adults. The resulting healthcare toolkit is available at www.autismandhealth.org.

- Title: A Cohort Study of Preterm Delivery in Relation to Partner Abuse, Mood and Anxiety Disorders; Source: National Institute of Child Health and Development (R01HD059835); Principal Investigator: Michelle Williams, PhD (University of Washington / Harvard University); Role: Co-Investigator; Amount: \$67,834 (subcontract to OHSU/PSU); % Effort: 5%; Timeframe: 09/2010-08/2015

The study prospectively assessed the association between intimate partner violence, depression, anxiety and preterm delivery in a cohort of pregnant women in Peru.

- Title: VISN 20 Patient-Aligned Care Teams Demonstration Lab; Source: Veterans Administration (VA#08-1610); Principal Investigators: David Hickam, MD, MPH and Devan Kansagara, MD, MPH. (Portland Veterans Administration Medical Center); Role: Co-Investigator; Amount: \$7,483,640 (\$567,411 IPAs to Nicolaidis and the PSU students/staff she supervised); % Effort: 35%; Timeframe: 06/2011-06/2015.

This demonstration project implemented and evaluated primary care delivery transformation in the Veterans Administration clinics in the Pacific Northwest.

- Title: Partnering with People with Developmental Disabilities to Address Interpersonal Violence; Source: Centers for Disease Control / Association of University Centers on Disabilities. RT01 (via University of Montana); Principal Investigator: Rosemary Hughes, PhD; Role: Co-Principal Investigator / Site PI; Amount: \$1,050,000; % Effort: 20%; Timeframe: 10/2009-05/2013.

This project used a community-based participatory research approach to conduct a large-scale observational study assessing the association between interpersonal violence, disability, and health in an urban and a rural population of adults with developmental disabilities.

- Title: CBPR to Improve Depression Care for African-American Domestic Violence Survivors; Source: National Institute of Mental Health (1R21MH082139); Principal Investigator: Christina Nicolaidis, MD, MPH; Role: PI; Amount: \$312,636; % Effort: 30%; Timeframe: 06/2008-05/2011.

Community-based participatory research project to develop community-based depression care program for African-American domestic violence survivors.

- Title: Preventive Web-Based Intervention for Spouses of Traumatized Military Personnel; Source: National Institute of Mental Health (R34MH083494); Co-Principal Investigators: Benson McFarland, MD, PhD & Colleen Lewy, PhD; Role: Co-Investigator; Amount: \$450,000 directs; %Effort: project overlap with K23 award; Timeframe: 09/2008-06/2011.

The project refined and pilot tested interactive Web-based technologies to provide military spouses and partners with education about post-traumatic stress disorder, to teach coping strategies, to facilitate social support, to attend to safety concerns, and to provide resource information.

- Title: Developing an Abuse-Sensitive Depression Care Model; Source: National Institute of Mental Health (K23MH073008); Principal Investigator: Christina Nicolaidis, MD, MPH; Role: PI; Amount: \$905,519; % Effort: 80%; Timeframe: 01/2005-06/2010.

This career development award included a qualitative study of depressed African-American and Latina domestic violence survivors, and a pilot intervention study to develop a community-based depression care model tailored to the needs of low-income women with a history of IPV.

- Title: Ambulatory Patient Safety of Clients in Treatment for Substance Abuse; Source: Agency for Healthcare Research and Quality (P20HS017137-01); Principal Investigator: Benson McFarland, MD; PhD. Role: Co-Investigator; %Effort: project overlap with K23 award; Timeframe: 09/2007-08/2009.

The project addressed risk management for clients who make transitions among addiction programs, mental health clinics, and primary care providers within a large public-sector academic health care system.

- Title: Internet Self-Help Program for Major Depressive Disorder in Spouses of Combatants; Source: National Institute of Mental Health (R34 MH080765); Principal Investigator: Benson McFarland, MD, PhD; Role: Co-Investigator; Amount: \$450,000 directs; %Effort: project overlap with K23 award; Timeframe: 09/2007-08/2008.

The goal of this project was to adapt and augment an existing cognitive-behavioral Internet computer program shown to be efficacious for treating depression in HMO members for use by spouses of civilian and military personnel engaged in operations in Iraq or Afghanistan.

- Title: Management of Menopause-Related Symptoms; Source: Agency for Healthcare Research and Quality (Contract #290-02-0024); Role: Co-Investigator; Principal Investigator: Heidi Nelson, MD, MPH; % Effort: 10%; Timeframe: 06/2004-03/2005.

Evidence Report for NIH State-of-the-Science Conference. Responsible for analyses of hormone effects on mood disorders and antidepressant effects on menopausal symptoms.

International

Current

- *Title:* Autism from menstruation to menopause: Participatory community led qualitative longitudinal research to understand Autistic reproductive experiences throughout the life course and improve healthcare services. *Source:* The Wellcome Trust Limited (225274/Z/22/Z). *Role:* Consultant; *Principal Investigator:* Aimee Grant, PhD. *Timeframe:* 7/2022-6/2030.

The objectives of this project are to understand Autistic reproductive experiences throughout the life course and improve healthcare services.

- *Title:* Design and Initial Evaluation of an Autism-Specific Health Check for Use with Autistic Adults NHS Primary Care; *Source:* Autistica (#7257); *Amount:* £454,246 (approximately \$581,435); *Role:* International Collaborator (co-investigator); *Principal Investigator:* Jeremy Parr, MD; *Timeframe:* 1/2019-12/2021.

This project will create and test an autism-specific health check to be used throughout the National Health Service in the United Kingdom.

National

Current

- *Title:* Amplifying Autistic Voices: Investigating the Impact of a Community-Based Public Speaking Program; *Source:* Organization for Autism Research; *Principal Investigator:* Sasha Zeedyk; *Role:* Consultant.

The objective of this project is to investigate outcomes of participation and feasibility of implementation for a Toastmasters Gavel Club (a community-based, small-group public speaking program) for autistic youth.

Completed

- *Title:* Addressing the Needs of Depressed Women with a History of Intimate Partner Violence; *Source:* Robert Wood Johnson Foundation Depression in Primary Care Program (RWJDIP 049268); *Amount:* \$128,122; *Principal Investigator:* Christina Nicolaidis, MD, MPH; *Role:* PI; *% Effort:* 40%; *Timeframe:* 09/2003-03/2004.

This study developed and pilot tested a primary care-based multi-faceted depression intervention specifically targeted to women who have experienced intimate partner violence.

State and Local

Completed

- Title: Developing an Abuse-Sensitive Depression Care Model for Women of Color; Source: Northwest Health Foundation Kaiser Permanente Community Fund (#10571); Amount: \$35,000; Principal Investigator: Christina Nicolaidis, MD, MPH; Role: PI; Timeframe: 06/2006-12/2009.

Community-based participatory research project to address depression in African-American and Latina domestic violence survivors.

- Title: Health Care and Intimate Partner Violence: Linking Advocates and Primary Care Providers in Washington County; Source: Northwest Health Foundation (#2001-331); Amount: \$120,000; Principal Investigator: Christina Nicolaidis, MD, MPH; Role: PI; % Effort: 30%; Timeframe: 1/2002-12/2003.

Implementation and evaluation of domestic violence training program at 31 primary care clinics. Conducted in partnership with a local domestic violence agency. Found significant improvements in providers' knowledge, attitudes, empathy, confidence, and self-reported behaviors.

- Title: Risk Factors for Chronic Somatic Medical Problems in Survivors of Intimate Partner Violence; Source: Medical Research Foundation (#0132); Amount: \$30,000; Principal Investigator: Christina Nicolaidis, MD, MPH; Role: PI; % Effort: none; Timeframe: 12/2001-11/2002.

Cross-sectional survey of female internal medicine patients, looking at the association of violence with chronic mental illness and physical complaints.

Institutional

Completed

- Title: IMPACT (Improving Addiction Care Team) and SUNAHA (Substance Abuse Needs Amongst Hospitalized Adults) Projects; Source: Oregon Health & Science University and Care Oregon; Amount: Annual budget ~\$514,474 (varies per year); Role: Co-Investigator; Principal Investigator: Honora Englander, MD, FACP; % Effort: variable; Timeframe: 07/2014-6/2020.

Clinical transformation project in partnership with OHSU, Central City Concern, CODA, and COREM, to improve multidisciplinary addiction care and follow-up for patients hospitalized with medical illnesses.

- Title: Pilot Study on Autistic Adult Burnout and Suicidal Behavior; Source: Oregon Health & Science University and Portland State University; Amount: \$50,000; Role: Co-Investigator; Principal Investigator: Dora Raymaker, PhD & Alan Teo, MD, MS; % Effort: 5%; Timeframe: 10/2018-03/2020

The purpose of this study was to use a CBPR approach to explore the role of burnout in the lives of autistic adults and its possible relationship to suicidal behavior.

- Title: Exploring the Transition to Fatherhood: Men Exposed to Domestic Violence in Childhood. Source: National Institute of Health (BUILD EXITO), Amount: \$50,000; Principal Investigator: Erika Kimball, PhD; Role: Co-Investigator; % Effort: 2%; Timeframe: 07/2016-06/2017

The purpose of the study was to use qualitative methods to better understand the parenting experiences of fathers who were exposed to domestic violence in childhood, in order to inform future parenting interventions.

- Title: Narratives of Autism and Skilled Employment; Source: National Institute of Health (BUILD EXITO), Amount: \$50,000; Principal Investigator: Dora Raymaker, PhD; Role: Co-Investigator; % Effort: 5%; Timeframe: 07/2016-06/2017

The purpose of the study was to use a CBPR approach and qualitative methods to better understand the employment experiences of adults on the autism spectrum, in order to inform a future intervention to increase successful employment.

- Title: Research on the Acceptability and Feasibility of a Random Controlled Trial on a Community-Based Wellness Program to Reduce Depression in African-Americans; Source: Oregon Clinical and Translational Research Institute (NIH-Funded CTSA); Amount: \$20,000; Principal Investigator: Christina Nicolaidis, MD, MPH; Community Principal Investigator: Corliss McKeever, MSW; Role: PI; 08/2012-07/2013

Pilot study testing a community-based self-management support program to improve depression in African-Americans.

- Title: Community-Based Participatory Research to Improve the Healthcare of Autistic Adults; Source: Oregon Clinical and Translational Research Institute (NIH-Funded CTSA); Amount: \$30,000; Principal Investigator: Christina Nicolaidis, MD, MPH; Role: PI; % Effort: none; Timeframe: 06/2009-05/2011.

Mixed methods study, using a CBPR approach, to compare the healthcare of autistic adults, adults with other disabilities, and adults without disabilities, and to explore ways to improve the healthcare of autistic adults.

- Title: Community-Based Participatory Research with Autistic Adults; Source: Portland State University Faculty Enhancement Grants; Amount: \$15,000; Role: Co-Principal Investigator; Principal Investigator: Katherine McDonald, PhD; Timeframe: 06/2008/06/2010.

CBPR project through the Academic Autistic Spectrum Partnership in Research and Education (AASPIRE) to conduct online survey of autistic adults' sense of community and self-identity.

Other Research and Creative Achievements

Co-Founder and Co-Director, Academic Autistic Partnership In Research and Education (AASPIRE), 2006-present. (www.aaspire.org)

- International academic-community partnership comprised of autistic and non-autistic academic researchers and community members.
- Pioneered the use of a community-based participatory research (CBPR) approach to equitably include autistic adults in all phases of the research. Projects address issues of high importance to the autistic community, including healthcare, employment, violence, reproductive health, suicide, autistic burnout, and outcome measurement.
- Created the AASPIRE Healthcare Toolkit, an interactive healthcare toolkit which includes the Autism Healthcare Accommodations Tool, educational materials for primary care providers about caring for adults on the autism spectrum, patient education materials, worksheets, checklists, and other resources for patients on the autism spectrum and their supporters. (Publicly released 2015.) Toolkit is available at www.autismandhealth.org.
- Created collaboration toolkit including guidelines for the inclusion of autistic adults in research, for the adaptation of survey instruments to be accessible to autistic adults, and for website accessibility (www.aaspire.org/collaboration-toolkit).
- Currently developing and validating the AutPROM Toolbox, a set of accessible outcome measures to evaluate services for autistic adults.
- Regularly offer consultations to autism researchers wishing to involve autistic individuals in their research as participants or research partners.

Teaching, Mentoring, and Curricular Achievements

Curriculum Development:

Portland State University

- Significantly restructured and redesigned content for SW622 (formerly “Social Problems: Evaluation,” now “Substantive Area Inquiry”) as part of redesign of PhD Program in Social Work and Social Research. (Developed 2016; taught Spring 2017 to present.)

- Developed Interdisciplinary Seminar on Research Methods in Social Determinants of Health (SW510/610). (Developed 2013; taught Spring 2013, 2014, and 2015.)

Oregon Health Science University

- Co-developed and co-taught OHSU MCR courses on Community-Based Participatory Research and Health Disparities. (Co-developed 2008-2010; Co-taught 2008-present.)
- Participated yearly in creating and updating ambulatory care curriculum for OHSU internal medicine residents. Responsible for sessions on menopause, domestic violence, irritable bowel syndrome, and chronic pain. 2002-2010. Helped develop session on intimate partner violence in 2017.
- Created Behavioral Medicine module on Domestic Violence for OHSU IM residents. 2000.
- Created curriculum for Chronic Pain Management for IM residents based on ACGME competencies. 2006.

National Training Programs

- Voices of Survivors Program
 - Created and directed educational documentary and accompanying curriculum (released 2000).
 - Video and training materials disseminated by American College of Physicians and Futures Without Violence (formerly Family Violence Prevention Fund). Over 3000 physical copies distributed in first 5 years. Program used in thousands of trainings nationally, including as part of state-wide training effort in California.
 - Video available online via Look to End Abuse Permanently (LEAP) <https://www.leapsf.org/html/training.shtml> or <https://vimeo.com/22614521>.
- AASPIRE Healthcare Toolkit
 - Led the creation of an online set of resources to improve primary healthcare for autistic adults.
 - Toolkit includes training materials and information about autism in adulthood for primary care providers and staff.
 - Available at <https://autismandhealth.org> (released 2015).
- Autism Intervention Research Network on Physical Health (AIR-P) Trainings and the AASPIRE Inclusive Research Toolkit
 - Co-created a required training program for all researchers applying for AIR-P Infrastructure for Collaborative Research (ICR) funding.
 - Created required training videos on “participatory research approaches with autistic team members” and “Human subjects research with autistic study participants.”
 - Creating a series of optional Q&A videos with more detailed information.
 - Led the creation of an online set of additional resources (including templates and sample materials) for researchers wishing conduct participatory, inclusive research with the autistic community (www.aaspire.org/inclusion-toolkit).
