Marion has a bachelor degree in Astrophysics from the Federal University of Rio Grande do Sul (UFRGS), obtained in 2015. In June of 2017, she obtained, from the same university, the master degree from the dissertation entitled "Molhabilidade de Superfícies Reentrantes" (Wetting of reentrant surfaces). At the moment she is doing the PhD in the field of Statistical Mechanics, specifically in numerical simulations of hydrophobic surfaces. Currently she is continuing her work at Università degli Studi di Roma "La Sapienza".
