YOU-FUTURE project combines classic and applied research to develop an intervention that promotes future orientation. It includes a universal prevention program involving 784 students and young adults through in-person sessions and an open-source app.

Dates (11/03/2024– ongoing)

Promoting Social Inclusion and Psychological Well-being through Prosocial Functioning: From an Ecological-Causal Perspective to Intervention Design

PIs: Antonio Zuffianò, Department of Psychology, Sapienza University of Rome, Italy; Benedetta Emanuela Palladino- University of Florence., Italy.

Supervisor: Prof. Antonio Zuffianò

Role: Bibliographic research; support for inserting baseline questionnaires and daily diaries into the platform (M-path); daily adaptation of scales typically used for cross-sectional studies; participation in team meetings; meetings with the creator of the M-path application used for data collection; participation in the pilot study phase; feedback collection from the pilot phase.

Description of the project: This longitudinal intensive project aims to promote social inclusion among adolescents and young adults. Insights into self-regulation and empathy in promoting social inclusion and overall well-being among young people in different contexts and social interactions are provided.

Methodologically, emphasis is placed on the importance of within-person encouragement design (WPED) to evaluate causal relationships while keeping participants in their natural environments. In practical terms, participants will receive training in prosocial skills based on empirical research to cultivate socially inclusive behaviors.

Dates (19/02/2024– ongoing)

Empathy-related responding, well-being, and prosocial functioning in adolescents' everyday life.

PIs: David Lundie- University of Glasgow (UK); Bernadette Paula Luengo Kanacri - Pontificia Universidad Católica de Chile, Santiago (UC); Ólafur Páll Jónsson, University of Iceland, Reykjavík; Antonio Zuffianò - Department of Psychology, Sapienza University of Rome, Italy.

Supervisor: Prof. Antonio Zuffianò

Role: research assistant; contact with participants at school; Bibliographic research; support for inserting the baseline questionnaire (Qualtrics) and daily questionnaires into the platform (M-path); daily adaptation of scales typically used for cross-sectional studies; participation in team meetings; participation in the pilot study phase; feedback collection from the pilot project.

Description of the project: The daily project, carried out in collaboration with other countries (United Kingdom, Iceland, Chile) aims to study the role of empathic responses, particularly concern for the well-being of others, in relation to prosocial behaviors and the well-being of adolescents in their daily life.

Participants will be adolescents aged 14 to 15, through questionnaires and daily diaries collected through Qualtrics and M-path online.
