

Personal Information

First name: Stefania
 Surname: Sardellitti
 Languages: Italian mother tongue, English

Education

11-06-2021 National Academic Qualification as Associate Professor (Abilitazione Scientifica Nazionale (ASN) a professore universitario di Seconda Fascia) in the Sector 09/F2 - TELECOMMUNICATIONS

29-04-2005 (Ph.D.) in Electric and Information Engineering, Department of Information, Automation, Electromagnetism and Industrial Mathematics, University of Cassino, Italy.

Thesis: Channel estimation and data decoding for MIMO wireless communications.

Advisor: Prof. Marco Lops.

15-12-1998 M. Sc. in Electronic Engineering, University of Rome La Sapienza

Thesis: Comparison of Multi-Carrier CDMA transmission systems.

Advisor: Prof. Sergio Barbarossa.

Luglio 1989 High school diploma, Scientific Lyceum of Pontecorvo (FR), Italy.

Academic appointments

04-11-2019 al 03-11-2022 Untenured Assistant Professor (RTD A), Department of Information Engineering, Electronics, and Telecommunications, Sapienza University of Rome, Italy.

April 2017 – March 2018 Postdoctoral research associate (Assegnista di Ricerca), Research title “Optimization algorithms for 5G networks”, Department of Information Engineering, Electronics, and Telecommunications, Sapienza University of Rome, Italy.

September 2011 – August 2016 Postdoctoral research associate (Assegnista di Ricerca), Research title “Algoritmi distribuiti per reti FEMTOCELL”, Department of Information Engineering, Electronics, and Telecommunications, Sapienza University of Rome, Italy.

From 2007 Collaboration contracts (Co.co.co.), Department of Information Engineering, Electronics, and Telecommunications, Sapienza University of Rome, Italy.

Teaching

from 2019 to 2022 Teacher for the Course “Digital Transmission”, Faculty of Information Engineering, University of Rome La Sapienza (Latina), for the academic years 2019-2020, 2020-2021 e 2021-2022.

from 2020 to 2022 Teacher for the Ph.D. Course: “Convex optimization: Theory and Applications,” Ph.D. in Information and Communication Technology (ICT), University of Rome La Sapienza

from 2014 to 2019 Teacher for the Course: “Images Transmission and Processing”, Informatics and Telecommunications Engineering, University of Cassino, Italy.

from 2009 to 2012 Teacher for the Course: “Reti Wireless Networks,” Informatics and Telecommunications Engineering, University of Cassino, Italy.

from 2004 to 2008 and from 2012 to 2014 Teacher for the Course: “Digital Transmission II,” Informatics and Telecommunications Engineering, University of Cassino.

A.A. 2006-2007 Teacher for the Course: “Digital Transmission II,” M.Sc. in Telecommunications Engineering, University of Sannio, Benevento.

A.A. 2008-2009 Teacher for the Course: “Multiuser networks and space-time coding,” M.Sc. in Telecommunications Engineering, University of Cassino, Italy.

Awards

- June 2021 IEEE Signal Processing Society 2020 Best Paper Award for the journal: S. Sardellitti, G. Scutari and S. Barbarossa, "Joint Optimization of Radio and Computational Resources for Multicell Mobile-Edge Computing," IEEE Trans. on Signal and Information Process. over Networks, vol. 1, no. 2, pp. 89-103, June 2015
- April 2015 IEEE Signal Processing Society 2014 Best Paper Award for the journal: S. Sardellitti, M. Giona, S. Barbarossa, "Fast distributed average consensus algorithms based on advection-diffusion processes," IEEE Trans. on Signal Process., vol. 58, no. 2, pp. 826-842, February 2010.

Research projects

- 5G CONNI Private 5G Networks for Connected Industries, Horizon 2020 Program, joint project Europe/Taiwan, Nr. AMD-861459-3. Role: secondary investigator.
- 5G-MiEdge, Millimeter-wave Edge Cloud as an Enabler for 5G Ecosystem, H2020 EUJ Project, Nr. 723171. Role: secondary investigator.
- TROPIC, Distributed computing, storage and radio resource allocation over cooperative femtocells, FP7 European Project, ICT-318784. Role: WP leader.
- ETARE, Enabling Technology for Advanced Radio in Europe, EDA Programme, B-0486-IAP4-ERG. Role: WP leader.
- FREEDOM, Femtocell-based network enhancement by interference management and coordination of information for seamless connectivity, FP7 European Project, ICT-248891. Role: secondary investigator
- WINSOC, Wireless sensor networks with self-organization capabilities for critical and emergency applications, FP6 European Project, IST-0033914. Role: secondary investigator

Editorial Activity and Affiliations

- Associate Editor of IEEE Transactions on Signal and Information Processing over Networks from 2022.
- Associate Editor of EURASIP Journal on Advances in Signal Processing (JASP) from 2020 and Lead Guest Editor for the EURASIP JASP Special Issue "Signal Processing over Higher Order Networks", 2022.
- IEEE Signal Processing Society Member from 2012.
- IEEE Society Member from 2022.

Talks

- October 2020 "Joint optimization of radio and computational resources in mobile edge computing", IEEE Signal Processing Society Webinar.
- June 2015 "Joint optimization of radio and computational resources in mobile cloud computing," Dept. of Information engineering, Electronics, and Telecommunications, Sapienza University of Rome.

Presentations at Conferences

- IEEE International Conference on Acoustics, Speech, and Signal Processing (ICASSP 2022)*
- Asilomar Conference on Signals, Systems and Computers, 2021*
- IEEE International Conference on Acoustics, Speech, and Signal Processing (ICASSP 2021)*
- 13th International Conference on Sampling Theory and Applications (SampTA 2019)*
- IEEE 3rd International Conference on Cloud Networking (CloudNet 2014).*

-*IEEE International Conference on Acoustics, Speech, and Signal Processing (ICASSP 2014)*
 -*IEEE Workshop on Signal Processing Advances in Wireless Communications, 2014*
 -*European Signal Processing Conference (EUSIPCO 2013)*
 -*Future Network and Mobile Summit (Funems 2013)*
 -*IEEE Third Int. Workshop on Cognitive Inform. Process., 2012*
 -*IEEE International Conference on Digital Signal Processing, 2011*
 -*Cognitive Systems with Interactive Sensors (COGIS 2009)*
 -*IEEE Signal Processing Advances in Wireless Communications (SPAWC 2009)*
 -*10th IEEE International Symposium on Spread Spectrum Techniques and Applications (ISSSTA 2008)*
 -*International Symposium on Information Theory and its Applications (ISITA 2004)*
 -*IEEE Signal Processing Advances in Wireless Communications (SPAWC 2003)*
 -*Third International Symposium on Image and Signal Processing and Analysis (ISPA 2003)*
 -*37th Asilomar Conference on Signals, Systems and Computers, 2003*

Research activity

Her primary research interests are in the areas of:

1. Topological signal processing
2. 5G Networks and Mobile-Edge Computing: optimal resources allocation
3. Wireless self-organizing, distributed and cognitive sensor networks
4. Distributed optimization and game theory
5. MIMO Multi-access communication systems
