03/2024 – 07/2024
EOG for eye tracking

Project in partnership with STMicroelectronics.

Use of a new electrostatic sensor produced by STMicroelectronics for the realization of a wearable system designed for recording Electrooculography (EOG).

Main tasks: Test protocol definition, systematic tests, design and implementation od an algorithm for the analysis and recognition of signals in Matlab and Python.

HONOURS AND AWARDS

2023
Honours Program in Nanotechnology Engineering – Sapienza University of Rome

Program reserved for the best students of the course.

Honours Program conducted within the Department of Information Engineering, Electronics and Telecommunications (DIET).

Project title: Fabrication and characterization of thin film sensors.

Project ECS000024 Rome Technopole - CUP B83D21014170006 PNRR - Mission 4 - Component 2 - Investment 1.5 funded by the European Union - NextGenerationEU

Awarding 480 scholarships to the best graduates in the Lazio region.

04/2025
Bando Award 2024 Rome Technopole – Rome Technopole
