

Clarissa Navarra

ABOUT ME

As a recent graduate, I'm eager to start my career and excited to dive into new challenges. I'm open to exploring various opportunities, especially in fields that blend technology and management, and I'm passionate about learning and growing in a dynamic work environment. Ready to contribute, adapt, and continuously develop both professionally and personally!

EDUCATION AND TRAINING

MSc in Management Engineering (curriculum Organizational Management)

Sapienza University of Rome [09/2022 – 01/2025]

City: Rome | Country: Italy

BSc in Computer Engineering (curriculum Information Systems)

Roma Tre University [09/2017 – 12/2021]

City: Rome | Country: Italy

Scientific High School Diploma

Galileo Galilei Scientific High School [09/2012 – 06/2017]

City: Tarquinia | Country: Italy

WORK EXPERIENCE

Manet Mobile Solutions – Roma, Italy

City: Roma | Country: Italy

Internship Student

[05/2021 – 10/2021]

- Implemented a background service to remotely control a set of settings and UI elements on a batch of Android mobile devices owned by the company.
- Focused on developing functionality to collect device information such as location, Wi-Fi status, charging status and battery level and send it to the company server.
- Used the Samsung Knox SDK for remote access and personalization of device settings and Firebase Cloud Messaging for communication between client and server.

PROJECTS

[10/2024 – 01/2025]

Design and development of a digital platform for Risk Management

- Designed and developed a full-stack prototype for a Digital Enterprise Risk Management platform of the company EY.
- Collaborated in implementing a user interface based on Angular, which communicates via HTTP REST protocol with a RESTful API built using ASP.NET Core. Specifically, the ASP.NET Core Web API project template was used to invoke business logic for performing CRUD operations on a SQL database.
- Focused on data management, specifically refining the conceptual data model, implementing it in the SQL database, developing the backend app in ASP.NET Core, and establishing communication with the Angular client. Additionally, I contributed to developing the user interface of the prototype using Angular and Bootstrap.

[2022 – 2023]

Implementation of a Business Information System

- Collaborated in developing an information system for a real construction company using the Odoo ERP software.
- The information system was designed to digitize the entire order management process and business operations. Therefore, after studying and modeling the business processes using BPMN, the necessary Odoo modules were implemented to manage customer requests, product inventory, and to generate quotations and invoices.

[2018 – 2019]

Development of an Android Mobile App

- Implemented an Android mobile app that serves as a travel diary and agenda, enabling users to document their trips and organize their schedules.
- Learned the fundamentals of C#, XAML, and XML from scratch, applying them for the first time in Android Studio to build the app.

SKILLS

IT Skills

Android Studio / Visual Studio Code / Eclipse / Spring Boot Tools 4 / Tomcat / Odoo / GitHub / Windows / Ubuntu / Microsoft Office 365 / Microsoft Teams / Visual Studio / Google Workspace / Zoom / Trello / SQL / Java / C# / C / HTML / Node.js / CSS / Bootstrap / ASP.NET Core (Web API) / Spring Boot / Angular / SQL Server / SQL Server Management Studio / Entity Framework Core / PostgreSQL / pgAdmin

Language Skills

Italian / English

Soft Skills

Determination / Teamwork / Ambition / Critical Thinking / Problem Solving / Motivation / Interest in professional growth / Flexibility / Willingness to learn / Adaptability
