

GIADA MARI

EXPERIENCE

- **PhD in Management and Industrial Engineering in Sapienza University of Rome**

November 2024 - Actual

- **Assistant Project Manager in PROGER (RM)**

October 2023 - October 2024

During this period, I participated in a research and development project for a **smart wearables device**.

My tasks included the following activities:

- defining and creating a governance model,
- stakeholder mapping,
- developing a communication plan,
- monitoring project timelines, performance, and physical progress,
- providing feedback for new releases and new feature implementations,
- drafting periodic reports.

ABOUT ME

I am a dynamic and curious individual with a propensity for finding efficient solutions to everyday challenges. I am highly committed to my work and strive for excellence until I achieve a satisfying outcome. My creativity is expressed through painting with watercolors and oils, as well as through engaging in sports and traveling. Additionally, I have a strong interest in technological innovation and consistently stay informed about the latest advancements.
