

INFORMAZIONI PERSONALI

Francesca Lotti

ESPERIENZA
PROFESSIONALE

2021	Founder and CEO of the Innovative Start-up SYMPLE (School of Hydrogeological Modelling and Project-related Strategies)
2018-2020	Organizer and trainer of the yearly course "Groundwater numerical models and how to make them useful" with John Doherty (author of PEST) and Giovanni Formentin (Tethys srl)
2018-20	Key expert in the Tender for the Development of Groundwater Models to Support Groundwater Management in the Maltese Island (CT3068/2018) with TEA Sistemi S.p.A. (Pisa)
2018	Trainer of the professional course "Groundwater Model Calibration using PEST", Fondazione Ordine degli Ingegneri Milano, September 24-27
2017	Trainer of the professional course "Model Calibration and Predictive Uncertainty Analysis using PEST", Università degli Studi della Tuscia, September 11-15
2017	Trainer of the professional course "Model Calibration and Predictive Uncertainty Analysis using PEST", University of Southampton, September 4-8
from 2017	Partner at Kataclima srl
from 2015	Hydrogeologist and Groundwater Modeler at Kataclima srl
2015-2016	Adjunct Professor of "Dinamica degli inquinanti e tecniche di monitoraggio e bonifica ambientale" (6 credits), BSc "Scienze Ambientali", University of Tuscia.
from 2014	Adjunct Professor of Geostatistics (6 credits), MSc "Geoenvironmental Resources and Risks", School of Science and Technology, University of Camerino.
2014-2015	Research agreement (Autostrade per l'Italia spa - Tor Vergata University) "Analysis and study of the hydrogeological model of sites under investigation".
from 2014	Lecturer at the Seminar: "Innovative Technologies in Groundwater Remediation: sustainability, methodologies, dimensioning and exercises on real cases" FAST, Milan.
from 2014	Lessons of Hydrogeology, II Level Master's Degree "Techniques and Environmental Controls", University of Rome Tor Vergata.
2014	Lecturer of the course "Groundwater Numerical Modelling" for the PhD in Ecology and Management of Biological Resources, University of Tuscia.
2014	Responsible of Working Placement, in collaboration with the University of Southampton, on geostatistical data processing and numerical modeling of groundwater.
2013	Research agreement (Lazio Region-Talete spa-Tuscia University) "As-well Corchiano. Research and uptake of alternative water resources for drinking water supply of Corchiano".
2012-2015	Research agreement (Arpa Lazio-Tuscia University) "Hydrogeological conceptual model and numerical simulation of flow and transport of the Vico Lake basin".

2012-2015	Research Program "Impacts assessment of the geothermal plant of the University Rectorate and General Services on the hydrogeology and physical, chemical and microbiological properties of the aquifer," University of Rome Tor Vergata.
from 2011	Lecturer in "Well Hydraulics" and "Spatial analysis of data", II Level Master's Degree "Characterization and Technologies for Remediation of Polluted Sites", University of Rome Sapienza.
2010-2013	PRIN Project "Hydrogeology of fractured and / or karst systems: theoretical research and applications to groundwater management under current climate change".
2010	Research agreement (Province of Viterbo-Tuscia University) "Census, investigation and description of the geological sites of the Province of Viterbo".
2010	Research agreement (Fenis srl - Tuscia University) "Production test of the Oasi well for the tapping of thermal waters".
2009	Research agreement (Free Time srl-Tuscia University) "Geochemical analysis of thermal water wells".
2009-2014	Adjunct Professor of the course Groundwater Resources (5 credits), MSc "Geoenvironmental Resources and Risks", School of Science and Technology, University of Camerino.
2009-2013	Contracts on Hydrogeology and numerical modelling of central Apennines aquifers, flow and heat transport models in volcanic aquifers and similar topics.
2008-2009	Adjunct Professor of the course of Hydrogeology, Bachelor Degree in Geological Sciences, University of Camerino.
2007-2008	Research agreement (Lazio Region-Tuscia University) "Enhancement of quarry materials in the town of Viterbo. Study of possible interference with hydrothermal resources of the mining area of Viterbo. Delineation and protection of the thermal safeguard areas, taking into account of the local mining activities".
2006	Integrative Course in Applied Geology "Exercises of Hydrology, Applied Geomorphology and Technical Geology through dedicated software", Tuscia University.
from 2005	Tutor / Cotutor of more than 20 thesis
2004	Research grant on "Integration of hydrogeological modeling and land planning of the basins of the lakes of Vico and Bracciano (Lazio) as a contribution to the management and protection of water resources" within the PRIN "Impact of human activities and climatic variations on the hydrogeological balance of the most important lakes of central Italy: modeling processes and possible management strategies ", University of Tuscia.
2003	Research grant on "Hydrological and hydrogeological issues of the Rio Fratta and Corchiano; implications for the sustainable management of water resources", University of Tuscia.

ISTRUZIONE E FORMAZIONE

2011	Course "Applied reactive transport modeling", dr. C. Zheng, H. Prommer, Centro di Ricerca CERI, Università Sapienza (Roma)
2010	Course " <i>PEST (Model-Independent Parameter Estimation)</i> ", dr. John Doherty, Watermark Numerical Solutions, Centro di Ricerca CERI, Università Sapienza, Valmontone (Roma).
2010	Course " <i>Calibration, Sensitivity Analysis and Uncertainty Evaluation of Groundwater Models</i> ", dr. Mary Hill, U.S. Geological Survey, Università Roma Tre, Roma

2007	Course "Calibration, Sensitivity Analysis and Uncertainty Evaluation of Groundwater Models", dr. Mary Hill, U.S. Geological Survey, Centro di Geotecnologie, Università degli Studi di Siena, San Giovanni Valdarno (AR).
2007	Course "FEFLOW Training Course", WASY GmbH (Institute for Water Resources Management and Systems Research), Ferrara.
2005	PhD in "Applied Geology, Geomorphology and Hydrogeology", Università degli Studi di Perugia, about: "Schema idrogeologico e modello di flusso in stazionario dell'acquifero vulcanico cimino-vicano (Lazio)".
2004	Course "Geostatistica applicata alle problematiche ambientali", APAT - Università degli Studi di Roma "La Sapienza", Roma.
2003	Summer School "Formazione in Metodologie Statistiche per l'Ambiente", Gruppo di Ricerca per le Applicazioni della Statistica ai Problemi Ambientali, Università degli Studi di Roma "La Sapienza", Caprarola (VT).
2003	Course "Groundwater modelling I: Theory and Handson Applications using MODFLOW, Modpath & MT3D", Waterloo Hydrogeologic, Roma.
2001	Degree in Environmental Sciences (<i>indirizzo terrestre, orientamento chimico</i>) 110/110 cum Laude, Università degli Studi della Tuscia
1995	Languages high school graduation (60/60), Viterbo
