

BUSTA 1)

1. Graphene-based nanofillers for the production of nanocomposites suitable for sensing applications
2. Challenges with graphene-based inks
3. Quali sono gli organi del dipartimento?

BUSTA 2)

1. Most important and used polymer matrices for graphene-based nanocomposites
2. Morphological characterization of nanocomposites
3. Quali sono gli organi delle Facoltà?

BUSTA 3)

1. Graphene nanoplatelets (GNP): production process and main properties
2. Nanofiller dispersion methods in polymer matrices
3. Tra chi è eletto il Rettore?

BUSTA 4)

1. Advantages of composite materials for wearable sensing applications
2. Electro-mechanical characterization of nanocomposites
3. Che cosa è il Senato Accademico?
